OMB CIRCULAR A-21

August 29, 1997

MEMORANDUM FOR THE RECORD

FROM: Norwood J. Jackson
Deputy Controller
Office of Federal Financial Management

SUBJECT: Recompilation of OMB Circular A-21

I certify that the attached document constitutes a recompilation of Office of Management and Budget Circular A-21, "Cost Principles for Educational Institutions." The recompilation consists of the May 8, 1996, recompilation at 61 FR 20893, as further amended at 62 FR 45934 (August 29, 1997). The May 8, 1996, recompilation consisted of the original Circular published at 44 FR 12368 (February 26, 1979), as amended by Transmittal Memoranda Numbers 1 through 6, at 47 FR 33658 (July 23, 1982), 51 FR 20908 (June 4, 1986), 51 FR 43487 (December 2, 1986), 56 FR 50224 (October 1, 1991), 58 FR 39996 (July 15, 1993), and 61 FR 20880 (dated April 26, 1996, published May 8, 1996), respectively.

CIRCULAR A-21 (REVISED 4/26/96, As Further Amended
8/29/97)

CIRCULAR NO. A-21
Revised

TO THE HEADS OF EXECUTIVE DEPARTMENTS AND ESTABLISHMENTS

SUBJECT: Cost Principles for Educational Institutions

1. Purpose. This Circular establishes principles for determining costs applicable to grants, contracts, and other agreements with educational institutions . The principles deal with the subject of cost determination, and make no attempt to identify the circumstances or dictate the extent of agency and institutional participation in the financing of a particular project. The principles are designed to provide that the Federal

Government bear its fair share of total costs, determined in accordance with generally accepted accounting principles, except where restricted or prohibited by law. Agencies are not expected to place additional restrictions on individual items of cost. Provision for profit or other increment above cost is outside the scope of this Circular.

2. Supersession. The Circular supersedes Federal Management Circular 73-8, dated December 19, 1973. FMC 73-8 is revised and reissued under its original designation of OMB Circular No. A-21.

3. Applicability.

a. All Federal agencies that sponsor research and development, training, and other work at educational institutions shall apply the provisions of this Circular in determining the costs incurred for such work. The principles shall also be used as a guide in the pricing of fixed price or lump sum agreements.

b. In addition, Federally Funded Research and Development Centers associated with educational institutions shall be required to comply with the Cost Accounting Standards, rules and regulations issued by the Cost Accounting Standards Board, and set forth in 48 CFR part 99; provided that they are subject thereto under defense related contracts.

4. Responsibilities. The successful application of cost accounting principles requires development of mutual understanding between representatives of educational institutions and of the Federal Government as to their scope, implementation, and interpretation.

5. Attachment. The principles and related policy guides are set forth in the Attachment, "Principles for determining costs applicable to grants, contracts, and other agreements with educational institutions."

6. Effective date. The provisions of this Circular shall be effective October 1, 1979, except for subsequent amendments incorporated herein for which the effective dates were specified in six Transmittal Memoranda (47 FR 33658, 51 FR 20908, 51 FR 43487, 56 FR 50224, and 58 FR 39996 and 61 FR 20880). The provisions shall be implemented by institutions as of the start of their first fiscal year beginning after that date. Earlier implementation, or a delay in implementation of individual provisions, is permitted by mutual agreement between an institution and the cognizant Federal agency.

7. Inquiries. Further information concerning this Circular may be obtained by contacting the Office of Federal Financial Management, Office of Management and Budget, Washington, DC 20503, telephone

(202) 395-3993.

PRINCIPLES FOR DETERMINING COSTS APPLICABLE TO GRANTS, CONTRACTS, AND OTHER AGREEMENTS WITH EDUCATIONAL INSTITUTIONS

A. Purpose and scope.

1. Objectives. This Attachment provides principles for determining the costs applicable to research and development, training, and other sponsored work performed by colleges and universities under grants, contracts, and other agreements with the Federal Government. These agreements are referred to as sponsored agreements.

2. Policy guides. The successful application of these cost accounting principles requires development of mutual understanding between representatives of universities and of the Federal Government as to their scope, implementation, and interpretation. It is recognized that --

a. The arrangements for Federal agency and institutional participation in the financing of a research, training, or other project are properly subject to negotiation between the agency and the institution concerned, in accordance with such governmentwide criteria or legal requirements as may be applicable.

b. Each institution, possessing its own unique combination of staff, facilities, and experience, should be encouraged to conduct research and educational activities in a manner consonant with its own academic philosophies and institutional objectives.

c. The dual role of students engaged in research and the resulting benefits to sponsored agreements are fundamental to the research effort and shall be recognized in the application of these principles.

d. Each institution, in the fulfillment of its obligations, should employ sound management practices.

e. The application of these cost accounting principles should require no

significant changes in the generally accepted accounting practices of colleges and universities. However, the accounting practices of individual colleges and universities must support the accumulation of costs as required by the principles, and must provide for adequate documentation to support costs charged to sponsored agreements.

f. Cognizant Federal agencies involved in negotiating facilities and administrative (F&A) cost rates and auditing should assure that institutions are generally applying these cost accounting principles on a consistent basis. Where wide variations exist in the treatment of a given cost item among institutions, the reasonableness and equitableness of such treatments should be fully considered during the rate negotiations and audit.

3. Application. These principles shall be used in determining the allowable costs of work performed by colleges and universities under sponsored agreements. The principles shall also be used in determining the costs of work performed by such institutions under subgrants, cost-reimbursement subcontracts, and other awards made to them under sponsored agreements. They also shall be used as a guide in the pricing of fixed-price contracts and subcontracts where costs are used in determining the appropriate price. The principles do not apply to:

a. Arrangements under which Federal financing is in the form of loans, scholarships, fellowships, traineeships, or other fixed amounts based on such items as education allowance or published tuition rates and fees of an institution.

b. Capitation awards.

c. Other awards under which the institution is not required to account to the Federal Government for actual costs incurred.

d. Conditional exemptions.

(1) OMB authorizes conditional exemption from OMB administrative requirements and cost principles circulars for certain Federal programs with statutorily-authorized consolidated planning and consolidated administrative funding, that are identified by a Federal agency and approved by the head of the Executive department or establishment. A Federal agency shall consult with OMB during its consideration of whether to grant such an exemption.

(2) To promote efficiency in State and local program administration, when Federal non-entitlement programs with common purposes have specific statutorily-authorized consolidated planning and consolidated

administrative funding and where most of the State agency's resources come from non-Federal sources, Federal agencies may exempt these covered State-administered, non-entitlement grant programs from certain OMB grants management requirements. The exemptions would be from all but the allocability of costs provisions of OMB Circulars A-87 (Attachment A, subsection C.3), "Cost Principles for State, Local, and Indian Tribal Governments," A-21 (Section C, subpart 4), "Cost Principles for Educational Institutions," and A-122 (Attachment A, subsection A.4), "Cost Principles for Non-Profit Organizations," and from all of the administrative requirements provisions of OMB Circular A-110, "Uniform Administrative Requirements for Grants and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations," and the agencies' grants management common rule.

(3) When a Federal agency provides this flexibility, as a prerequisite to a State's exercising this option, a State must adopt its own written fiscal and administrative requirements for expending and accounting for all funds, which are consistent with the provisions of OMB Circular A-87, and extend such policies to all subrecipients. These fiscal and administrative requirements must be sufficiently specific to ensure that: funds are used in compliance with all applicable Federal statutory and regulatory provisions, costs are reasonable and necessary for operating these programs, and funds are not be used for general expenses required to carry out other responsibilities of a State or its subrecipients.

4. Inquiries. All inquiries from Federal agencies concerning the cost principles contained in this Circular, including the administration and implementation of the Cost Accounting Standards (CAS) (described in Sections C.10 through C.13) and disclosure statement (DS-2) requirements, shall be addressed by the Office of Management and Budget (OMB), Office of Federal Financial Management, in coordination with the Cost Accounting Standard Board (CASB) with respect to inquiries concerning CAS. Educational institutions' inquiries should be addressed to the cognizant agency.

B. Definition of terms.

1. Major functions of an institution refers to instruction, organized research, other sponsored activities and other institutional activities as defined below:

a. Instruction means the teaching and training activities of an institution. Except for research training as provided in subsection b, this term includes all teaching and training activities, whether they are offered

for credits toward a degree or certificate or on a non-credit basis, and whether they are offered through regular academic departments or separate divisions, such as a summer school division or an extension division. Also considered part of this major function are departmental research, and, where agreed to, university research.

(1) Sponsored instruction and training means specific instructional or training activity established by grant, contract, or cooperative agreement. For purposes of the cost principles, this activity may be considered a major function even though an institution's accounting treatment may include it in the instruction function.

(2) Departmental research means research, development and scholarly activities that are not organized research and, consequently, are not separately budgeted and accounted for. Departmental research, for purposes of this document, is not considered as a major function, but as a part of the instruction function of the institution.

b. Organized research means all research and development activities of an institution that are separately budgeted and accounted for. It includes:

(1) Sponsored research means all research and development activities that are sponsored by Federal and non-Federal agencies and organizations . This term includes activities involving the training of individuals in research techniques (commonly called research training) where such activities utilize the same facilities as other research and development activities and where such activities are not included in the instruction function.

(2) University research means all research and development activities that are separately budgeted and accounted for by the institution under an internal application of institutional funds. University research, for purposes of this document, shall be combined with sponsored research under the function of organized research.

c. Other sponsored activities means programs and projects financed by Federal and non-Federal agencies and organizations which involve the performance of work other than instruction and organized research. Examples of such programs and projects are health service projects, and community service programs. However, when any of these activities are undertaken by the institution without outside support, they may be classified as other institutional activities.

d. Other institutional activities means all activities of an institution except:

(1) instruction, departmental research, organized research, and other sponsored activities, as defined above;

(2) F&A cost activities identified in Section F; and

(3) specialized service facilities described in Section J.44. Other institutional activities include operation of residence halls, dining halls, hospitals and clinics, student unions, intercollegiate athletics, bookstores, faculty housing, student apartments, guest houses, chapels, theaters, public museums, and other similar auxiliary enterprises. This definition also includes any other categories of activities, costs of which are "unallowable" to sponsored agreements, unless otherwise indicated in the agreements.

2. Sponsored agreement, for purposes of this Circular, means any grant, contract, or other agreement between the institution and the Federal Government.

3. Allocation means the process of assigning a cost, or a group of costs, to one or more cost objective, in reasonable and realistic proportion to the benefit provided or other equitable relationship. A cost objective may be a major function of the institution, a particular service or project, a sponsored agreement, or a F&A cost activity, as described in Section F. The process may entail assigning a cost(s) directly to a final cost objective or through one or more intermediate cost objectives.

4. Facilities and administrative (F&A) costs, for the purpose of this Circular, means costs that are incurred for common or joint objectives and, therefore, cannot be identified readily and specifically with a particular sponsored project, an instructional activity, or any other institutional activity. F&A costs are synonymous with "indirect" costs, as previously used in this Circular and as currently used in Appendices A and B. The F&A cost categories are described in Section F.1.

C. Basic considerations.

1. Composition of total costs. The cost of a sponsored agreement is comprised of the allowable direct costs incident to its performance, plus the allocable portion of the allowable F&A costs of the institution, less applicable credits as described in subsection 5.

2. Factors affecting allowability of costs. The tests of allowability of costs under these principles are: (a) they must be reasonable; (b) they must be allocable to sponsored agreements under the principles and methods provided herein; (c) they must be given consistent treatment

through application of those generally accepted accounting principles appropriate to the circumstances; and (d) they must conform to any limitations or exclusions set forth in these principles or in the sponsored agreement as to types or amounts of cost items.

3. Reasonable costs. A cost may be considered reasonable if the nature of the goods or services acquired or applied, and the amount involved therefor, reflect the action that a prudent person would have taken under the circumstances prevailing at the time the decision to incur the cost was made. Major considerations involved in the determination of the reasonableness of a cost are: (a) whether or not the cost is of a type generally recognized as necessary for the operation of the institution or the performance of the sponsored agreement; (b) the restraints or requirements imposed by such factors as arm's-length bargaining, Federal and State laws and regulations, and sponsored agreement terms and conditions; (c) whether or not the individuals concerned acted with due prudence in the circumstances, considering their responsibilities to the institution, its employees, its students, the Federal Government, and the public at large; and, (d) the extent to which the actions taken with respect to the incurrence of the cost are consistent with established institutional policies and practices applicable to the work of the institution generally, including sponsored agreements.

4. Allocable costs.

a. A cost is allocable to a particular cost objective (i.e., a specific function, project, sponsored agreement, department, or the like) if the goods or services involved are chargeable or assignable to such cost objective in accordance with relative benefits received or other equitable relationship. Subject to the foregoing, a cost is allocable to a sponsored agreement if (1) it is incurred solely to advance the work under the sponsored agreement; (2) it benefits both the sponsored agreement and other work of the institution, in proportions that can be approximated through use of reasonable methods, or (3) it is necessary to the overall operation of the institution and, in light of the principles provided in this Circular, is deemed to be assignable in part to sponsored projects. Where the purchase of equipment or other capital items is specifically authorized under a sponsored agreement, the amounts thus authorized for such purchases are assignable to the sponsored agreement regardless of the use that may subsequently be made of the equipment or other capital items involved.

b. Any costs allocable to a particular sponsored agreement under the standards provided in this Circular may not be shifted to other sponsored agreements in order to meet deficiencies caused by overruns or other fund considerations, to avoid restrictions imposed by law or

by terms of the sponsored agreement, or for other reasons of convenience.

c. Any costs allocable to activities sponsored by industry, foreign governments or other sponsors may not be shifted to federally-sponsored agreements.

d. Allocation and documentation standard.

(1) Cost principles. The recipient institution is responsible for ensuring that costs charged to a sponsored agreement are allowable, allocable, and reasonable under these cost principles.

(2) Internal controls. The institution's financial management system shall ensure that no one person has complete control over all aspects of a financial transaction.

(3) Direct cost allocation principles. If a cost benefits two or more projects or activities in proportions that can be determined without undue effort or cost, the cost should be allocated to the projects based on the proportional benefit. If a cost benefits two or more projects or activities in proportions that cannot be determined because of the interrelationship of the work involved, then, notwithstanding subsection b, the costs may be allocated or transferred to benefited projects on any reasonable basis, consistent with subsections d.(1) and (2).

(4) Documentation. Federal requirements for documentation are specified in this Circular, Circular A-110, "Uniform Administrative Requirements for Grants and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations," and specific agency policies on cost transfers. If the institution authorizes the principal investigator or other individual to have primary responsibility, given the requirements of subsection d.(2), for the management of sponsored agreement funds, then the institution's documentation requirements for the actions of those individuals (e.g., signature or initials of the principal investigator or designee or use of a password) will normally be considered sufficient.

5. Applicable credits.

a. The term "applicable credits" refers to those receipts or negative expenditures that operate to offset or reduce direct or F&A cost items. Typical examples of such transactions are: purchase discounts, rebates, or allowances; recoveries or indemnities on losses; and adjustments of overpayments or erroneous charges. This term also includes

"educational discounts" on products or services provided specifically to educational institutions, such as discounts on computer equipment, except where the arrangement is clearly and explicitly identified as a gift by the vendor.

b. In some instances, the amounts received from the Federal Government to finance institutional activities or service operations should be treated as applicable credits. Specifically, the concept of netting such credit items against related expenditures should be applied by the institution in determining the rates or amounts to be charged to sponsored agreements for services rendered whenever the facilities or other resources used in providing such services have been financed directly, in whole or in part, by Federal funds. (See Sections F.10, J.12.a, and J.44 for areas of potential application in the matter of direct Federal financing.)

6. Costs incurred by State and local governments. Costs incurred or paid by State or local governments on behalf of their colleges and universities for fringe benefit programs, such as pension costs and FICA and any other costs specifically incurred on behalf of, and in direct benefit to, the institutions, are allowable costs of such institutions whether or not these costs are recorded in the accounting records of the institutions, subject to the following:

a. The costs meet the requirements of subsections 1 through 5.

b. The costs are properly supported by cost allocation plans in accordance with applicable Federal cost accounting principles.

c. The costs are not otherwise borne directly or indirectly by the Federal Government.

7. Limitations on allowance of costs. Sponsored agreements may be subject to statutory requirements that limit the allowance of costs. When the maximum amount allowable under a limitation is less than the total amount determined in accordance with the principles in this Circular, the amount not recoverable under a sponsored agreement may not be charged to other sponsored agreements.

8. Collection of unallowable costs, excess costs due to noncompliance with cost policies, increased costs due to failure to follow a disclosed accounting practice and increased costs resulting from a change in cost accounting practice. The following costs shall be refunded (including interest) in accordance with applicable Federal agency regulations:

a. Costs specifically identified as unallowable in Section J, either

directly or indirectly, and charged to the Federal Government.

b. Excess costs due to failure by the educational institution to comply with the cost policies in this Circular.

c. Increased costs due to a noncompliant cost accounting practice used to estimate, accumulate, or report costs.

d. Increased costs resulting from a change in accounting practice.

9. Adjustment of previously negotiated F&A cost rates containing unallowable costs. Negotiated F&A cost rates based on a proposal later found to have included costs that (a) are unallowable as specified by (i) law or regulation, (ii) Section J of this Circular, (iii) terms and conditions of sponsored agreements, or (b) are unallowable because they are clearly not allocable to sponsored agreements, shall be adjusted, or a refund shall be made, in accordance with the requirements of this section. These adjustments or refunds are designed to correct the proposals used to establish the rates and do not constitute a reopening of the rate negotiation. The adjustments or refunds will be made regardless of the type of rate negotiated (predetermined, final, fixed, or provisional).

a. For rates covering a future fiscal year of the institution, the unallowable costs will be removed from the F&A cost pools and the rates appropriately adjusted.

b. For rates covering a past period, the Federal share of the unallowable costs will be computed for each year involved and a cash refund (including interest chargeable in accordance with applicable regulations) will be made to the Federal Government. If cash refunds are made for past periods covered by provisional or fixed rates, appropriate adjustments will be made when the rates are finalized to avoid duplicate recovery of the unallowable costs by the Federal Government.

c. For rates covering the current period, either a rate adjustment or a refund, as described in subsections a and b, shall be required by the cognizant agency. The choice of method shall be at the discretion of the cognizant agency, based on its judgment as to which method would be most practical.

d. The amount or proportion of unallowable costs included in each year's rate will be assumed to be the same as the amount or proportion of unallowable costs included in the base year proposal used to establish the rate.

10. Consistency in estimating, accumulating and reporting costs.

a. An educational institution's practices used in estimating costs in pricing a proposal shall be consistent with the educational institution's cost accounting practices used in accumulating and reporting costs.

b. An educational institution's cost accounting practices used in accumulating and reporting actual costs for a sponsored agreement shall be consistent with the educational institution's practices used in estimating costs in pricing the related proposal or application.

c. The grouping of homogeneous costs in estimates prepared for proposal purposes shall not per se be deemed an inconsistent application of cost accounting practices under subsection a when such costs are accumulated and reported in greater detail on an actual cost basis during performance of the sponsored agreement.

d. Appendix A also reflects this requirement, along with the purpose, definitions, and techniques for application, all of which are authoritative.

11. Consistency in allocating costs incurred for the same purpose.

a. All costs incurred for the same purpose, in like circumstances, are either direct costs only or F&A costs only with respect to final cost objectives. No final cost objective shall have allocated to it as a cost any cost, if other costs incurred for the same purpose, in like circumstances, have been included as a direct cost of that or any other final cost objective. Further, no final cost objective shall have allocated to it as a direct cost any cost, if other costs incurred for the same purpose, in like circumstances, have been included in any F&A cost pool to be allocated to that or any other final cost objective.

b. Appendix A reflects this requirement along with its purpose, definitions, techniques for application, illustrations and interpretations, all of which are authoritative.

12. Accounting for unallowable costs.

a. Costs expressly unallowable or mutually agreed to be unallowable, including costs mutually agreed to be unallowable directly associated costs, shall be identified and excluded from any billing, claim, application, or proposal applicable to a sponsored agreement.

b. Costs which specifically become designated as unallowable as a result of a written decision furnished by a Federal official pursuant to

sponsored agreement disputes procedures shall be identified if included in or used in the computation of any billing, claim, or proposal applicable to a sponsored agreement. This identification requirement applies also to any costs incurred for the same purpose under like circumstances as the costs specifically identified as unallowable under either this subsection or subsection a.

c. Costs which, in a Federal official's written decision furnished pursuant to sponsored agreement disputes procedures, are designated as unallowable directly associated costs of unallowable costs covered by either subsection a or b shall be accorded the identification required by subsection b.

d. The costs of any work project not contractually authorized by a sponsored agreement, whether or not related to performance of a proposed or existing sponsored agreement, shall be accounted for, to the extent appropriate, in a manner which permits ready separation from the costs of authorized work projects.

e. All unallowable costs covered by subsections a through d shall be subject to the same cost accounting principles governing cost allocability as allowable costs. In circumstances where these unallowable costs normally would be part of a regular F&A cost allocation base or bases, they shall remain in such base or bases. Where a directly associated cost is part of a category of costs normally included in a F&A cost pool that shall be allocated over a base containing the unallowable cost with which it is associated, such a directly associated cost shall be retained in the F&A cost pool and be allocated through the regular allocation process.

f. Where the total of the allocable and otherwise allowable costs exceeds a limitation-of-cost or ceiling-price provision in a sponsored agreement, full direct and F&A cost allocation shall be made to the sponsored agreement cost objective, in accordance with established cost accounting practices and standards which regularly govern a given entity's allocations to sponsored agreement cost objectives. In any determination of a cost overrun, the amount thereof shall be identified in terms of the excess of allowable costs over the ceiling amount, rather than through specific identification of particular cost items or cost elements.

g. Appendix A reflects this requirement, along with its purpose, definitions, techniques for application, and illustrations of this standard, all of which are authoritative.

13. Cost accounting period.

a. Educational institutions shall use their fiscal year as their cost accounting period, except that:

(1) Costs of a F&A function which exists for only a part of a cost accounting period may be allocated to cost objectives of that same part of the period on the basis of data for that part of the cost accounting period if the cost is: (i) material in amount, (ii) accumulated in a separate F&A cost pool or expense pool, and (iii) allocated on the basis of an appropriate direct measure of the activity or output of the function during that part of the period.

(2) An annual period other than the fiscal year may, upon mutual agreement with the Federal Government, be used as the cost accounting period if the use of such period is an established practice of the educational institution and is consistently used for managing and controlling revenues and disbursements, and appropriate accruals, deferrals or other adjustments are made with respect to such annual periods.

(3) A transitional cost accounting period other than a year shall be used whenever a change of fiscal year occurs.

b. An educational institution shall follow consistent practices in the selection of the cost accounting period or periods in which any types of expense and any types of adjustment to expense (including prior-period adjustments) are accumulated and allocated.

c. The same cost accounting period shall be used for accumulating costs in a F&A cost pool as for establishing its allocation base, except that the Federal Government and educational institution may agree to use a different period for establishing an allocation base, provided:

(1) The practice is necessary to obtain significant administrative convenience,

(2) The practice is consistently followed by the educational institution,

(3) The annual period used is representative of the activity of the cost accounting period for which the F&A costs to be allocated are accumulated, and

(4) The practice can reasonably be estimated to provide a distribution to cost objectives of the cost accounting period not materially different from that which otherwise would be obtained.

d. Appendix A reflects this requirement, along with its purpose,

definitions, techniques for application and illustrations, all of which are authoritative.

14. Disclosure Statement.

a. Educational institutions that received aggregate sponsored agreements totaling \$25 million or more subject to this Circular during their most recently completed fiscal year shall disclose their cost accounting practices by filing a Disclosure Statement (DS-2), which is reproduced in Appendix B. With the approval of the cognizant agency, an educational institution may meet the DS-2 submission by submitting the DS-2 for each business unit that received \$25 million or more in sponsored agreements.

b. The DS-2 shall be submitted to the cognizant agency with a copy to the educational institution's audit cognizant office.

c. Educational institutions receiving \$25 million or more in sponsored agreements that are not required to file a DS-2 pursuant to 48 CFR 9903.202-1 shall file a DS-2 covering the first fiscal year beginning after the publication date of this revision, within six months after the end of that fiscal year. Extensions beyond the above due date may be granted by the cognizant agency on a case-by-case basis.

d. Educational institutions are responsible for maintaining an accurate DS-2 and complying with disclosed cost accounting practices. Educational institutions must file amendments to the DS-2 when disclosed practices are changed to comply with a new or modified standard, or when practices are changed for other reasons. Amendments of a DS-2 may be submitted at any time. If the change is expected to have a material impact on the educational institution's negotiated F&A cost rates, the revision shall be approved by the cognizant agency before it is implemented. Resubmission of a complete, updated DS-2 is discouraged except when there are extensive changes to disclosed practices.

e. Cost and funding adjustments. Cost adjustments shall be made by the cognizant agency if an educational institution fails to comply with the cost policies in this Circular or fails to consistently follow its established or disclosed cost accounting practices when estimating, accumulating or reporting the costs of sponsored agreements, if aggregate cost impact on sponsored agreements is material. The cost adjustment shall normally be made on an aggregate basis for all affected sponsored agreements through an adjustment of the educational institution's future F&A costs rates or other means considered appropriate by the cognizant agency. Under the terms of CAS-covered

contracts, adjustments in the amount of funding provided may also be required when the estimated proposal costs were not determined in accordance with established cost accounting practices.

f. Overpayments. Excess amounts paid in the aggregate by the Federal Government under sponsored agreements due to a noncompliant cost accounting practice used to estimate, accumulate, or report costs shall be credited or refunded, as deemed appropriate by the cognizant agency. Interest applicable to the excess amounts paid in the aggregate during the period of noncompliance shall also be determined and collected in accordance with applicable Federal agency regulations.

g. Compliant cost accounting practice changes. Changes from one compliant cost accounting practice to another compliant practice that are approved by the cognizant agency may require cost adjustments if the change has a material effect on sponsored agreements and the changes are deemed appropriate by the cognizant agency.

h. Responsibilities. The cognizant agency shall:

(1) Determine cost adjustments for all sponsored agreements in the aggregate on behalf of the Federal Government. Actions of the cognizant agency official in making cost adjustment determinations shall be coordinated with all affected Federal agencies to the extent necessary.

(2) Prescribe guidelines and establish internal procedures to promptly determine on behalf of the Federal Government that a DS-2 adequately discloses the educational institution's cost accounting practices and that the disclosed practices are compliant with applicable CAS and the requirements of this Circular.

(3) Distribute to all affected agencies any DS-2 determination of adequacy and/or noncompliance.

D. Direct costs.

1. General. Direct costs are those costs that can be identified specifically with a particular sponsored project, an instructional activity, or any other institutional activity, or that can be directly assigned to such activities relatively easily with a high degree of accuracy. Costs incurred for the same purpose in like circumstances must be treated consistently as either direct or F&A costs. Where an institution treats a particular type of cost as a direct cost of sponsored agreements, all costs incurred for the same purpose in like circumstances shall be treated as direct costs of all activities of the

institution.

2. Application to sponsored agreements. Identification with the sponsored work rather than the nature of the goods and services involved is the determining factor in distinguishing direct from F&A costs of sponsored agreements. Typical costs charged directly to a sponsored agreement are the compensation of employees for performance of work under the sponsored agreement, including related fringe benefit costs to the extent they are consistently treated, in like circumstances, by the institution as direct rather than F&A costs; the costs of materials consumed or expended in the performance of the work; and other items of expense incurred for the sponsored agreement, including extraordinary utility consumption. The cost of materials supplied from stock or services rendered by specialized facilities or other institutional service operations may be included as direct costs of sponsored agreements, provided such items are consistently treated, in like circumstances, by the institution as direct rather than F&A costs, and are charged under a recognized method of computing actual costs, and conform to generally accepted cost accounting practices consistently followed by the institution.

E. F&A costs.

1. General. F&A costs are those that are incurred for common or joint objectives and therefore cannot be identified readily and specifically with a particular sponsored project, an instructional activity, or any other institutional activity. See Section F.1 for a discussion of the components of F&A costs.

2. Criteria for distribution.

a. Base period. A base period for distribution of F&A costs is the period during which the costs are incurred. The base period normally should coincide with the fiscal year established by the institution, but in any event the base period should be so selected as to avoid inequities in the distribution of costs.

b. Need for cost groupings. The overall objective of the F&A cost allocation process is to distribute the F&A costs described in Section F to the major functions of the institution in proportions reasonably consistent with the nature and extent of their use of the institution's resources. In order to achieve this objective, it may be necessary to provide for selective distribution by establishing separate groupings of cost within one or more of the F&A cost categories referred to in subsection 1. In general, the cost groupings established within a category should constitute, in each case, a pool of those items of

expense that are considered to be of like nature in terms of their relative contribution to (or degree of remoteness from) the particular cost objectives to which distribution is appropriate. Cost groupings should be established considering the general guides provided in subsection c. Each such pool or cost grouping should then be distributed individually to the related cost objectives, using the distribution base or method most appropriate in the light of the guides set forth in subsection d.

c. General considerations on cost groupings. The extent to which separate cost groupings and selective distribution would be appropriate at an institution is a matter of judgment to be determined on a case-by-case basis. Typical situations which may warrant the establishment of two or more separate cost groupings (based on account classification or analysis) within a F&A cost category include but are not limited to the following:

(1) Where certain items or categories of expense relate solely to one of the major functions of the institution or to less than all functions, such expenses should be set aside as a separate cost grouping for direct assignment or selective allocation in accordance with the guides provided in subsections b and d.

(2) Where any types of expense ordinarily treated as general administration or departmental administration are charged to sponsored agreements as direct costs, expenses applicable to other activities of the institution when incurred for the same purposes in like circumstances must, through separate cost groupings, be excluded from the F&A costs allocable to those sponsored agreements and included in the direct cost of other activities for cost allocation purposes.

(3) Where it is determined that certain expenses are for the support of a service unit or facility whose output is susceptible of measurement on a workload or other quantitative basis, such expenses should be set aside as a separate cost grouping for distribution on such basis to organized research, instructional, and other activities at the institution or within the department.

(4) Where activities provide their own purchasing, personnel administration, building maintenance or similar service, the distribution of general administration and general expenses, or operation and maintenance expenses to such activities should be accomplished through cost groupings which include only that portion of central F&A costs (such as for overall management) which are properly allocable to such activities.

(5) Where the institution elects to treat fringe benefits as F&A charges, such costs should be set aside as a separate cost grouping for selective distribution to related cost objectives.

(6) The number of separate cost groupings within a category should be held within practical limits, after taking into consideration the materiality of the amounts involved and the degree of precision attainable through less selective methods of distribution.

d. Selection of distribution method.

(1) Actual conditions must be taken into account in selecting the method or base to be used in distributing individual cost groupings. The essential consideration in selecting a base is that it be the one best suited for assigning the pool of costs to cost objectives in accordance with benefits derived; a traceable cause and effect relationship; or logic and reason, where neither benefit nor cause and effect relationship is determinable.

(2) Where a cost grouping can be identified directly with the cost objective benefited, it should be assigned to that cost objective.

(3) Where the expenses in a cost grouping are more general in nature, the distribution may be based on a cost analysis study which results in an equitable distribution of the costs. Such cost analysis studies may take into consideration weighting factors, population, or space occupied if appropriate. Cost analysis studies, however, must (a) be appropriately documented in sufficient detail for subsequent review by the cognizant Federal agency, (b) distribute the costs to the related cost objectives in accordance with the relative benefits derived, (c) be statistically sound, (d) be performed specifically at the institution at which the results are to be used, and (e) be reviewed periodically, but not less frequently than every two years, updated if necessary, and used consistently. Any assumptions made in the study must be stated and explained. The use of cost analysis studies and periodic changes in the method of cost distribution must be fully justified.

(4) If a cost analysis study is not performed, or if the study does not result in an equitable distribution of the costs, the distribution shall be made in accordance with the appropriate base cited in Section F, unless one of the following conditions is met: (a) it can be demonstrated that the use of a different base would result in a more equitable allocation of the costs, or that a more readily available base would not increase the costs charged to sponsored agreements, or (b) the institution qualifies for, and elects to use, the simplified method for computing F&A cost rates described in Section H.

(5) Notwithstanding subsection (3), effective July 1, 1998, a cost analysis study or base other than that in Section F shall not be used to distribute utility, library or student services costs. By that date, OMB shall have in place an alternative methodology for making payments on costs related to utilities.

e. Order of distribution.

(1) F&A costs are the broad categories of costs discussed in Section F.1.

(2) Depreciation and use allowances, operation and maintenance expenses, and general administrative and general expenses should be allocated in that order to the remaining F&A cost categories as well as to the major functions and specialized service facilities of the institution. Other cost categories may be allocated in the order determined to be most appropriate by the institutions. When cross allocation of costs is made as provided in subsection (3), this order of allocation does not apply.

(3) Normally a F&A cost category will be considered closed once it has been allocated to other cost objectives, and costs may not be subsequently allocated to it. However, a cross allocation of costs between two or more F&A cost categories may be used if such allocation will result in a more equitable allocation of costs. If a cross allocation is used, an appropriate modification to the composition of the F&A cost categories described in Section F is required.

F. Identification and assignment of F&A costs.

1. Definition of Facilities and Administration. F&A costs are broad categories of costs. "Facilities" is defined as depreciation and use allowances, interest on debt associated with certain buildings, equipment and capital improvements, operation and maintenance expenses, and library expenses. "Administration" is defined as general administration and general expenses, departmental administration, sponsored projects administration, student administration and services, and all other types of expenditures not listed specifically under one of the subcategories of Facilities (including cross allocations from other pools).

2. Depreciation and use allowances.

a. The expenses under this heading are the portion of the costs of the institution's buildings, capital improvements to land and buildings, and equipment which are computed in accordance with Section J.12.

b. In the absence of the alternatives provided for in Section E.2.d, the expenses included in this category shall be allocated in the following manner:

(1) Depreciation or use allowances on buildings used exclusively in the conduct of a single function, and on capital improvements and equipment used in such buildings, shall be assigned to that function.

(2) Depreciation or use allowances on buildings used for more than one function, and on capital improvements and equipment used in such buildings, shall be allocated to the individual functions performed in each building on the basis of usable square feet of space, excluding common areas such as hallways, stairwells, and rest rooms.

(3) Depreciation or use allowances on buildings, capital improvements and equipment related to space (e.g., individual rooms, laboratories) used jointly by more than one function (as determined by the users of the space) shall be treated as follows. The cost of each jointly used unit of space shall be allocated to benefiting functions on the basis of:

(a) the employee full-time equivalents (FTEs) or salaries and wages of those individual functions benefiting from the use of that space; or

(b) institution-wide employee FTEs or salaries and wages applicable to the benefiting major functions (see Section B.1) of the institution.

(4) Depreciation or use allowances on certain capital improvements to land, such as paved parking areas, fences, sidewalks, and the like, not included in the cost of buildings, shall be allocated to user categories of students and employees on a full-time equivalent basis. The amount allocated to the student category shall be assigned to the instruction function of the institution. The amount allocated to the employee category shall be further allocated to the major functions of the institution in proportion to the salaries and wages of all employees applicable to those functions.

3. Interest. Interest on debt associated with certain buildings, equipment and capital improvements, as defined in Sections J.22.e and f, shall be classified as an expenditure under the category Facilities. These costs shall be allocated in the same manner as the depreciation or use allowances on the buildings, equipment and capital improvements to which the interest relates.

4. Operation and maintenance expenses.

a. The expenses under this heading are those that have been incurred

for the administration, supervision, operation, maintenance, preservation, and protection of the institution's physical plant. They include expenses normally incurred for such items as janitorial and utility services; repairs and ordinary or normal alterations of buildings, furniture and equipment; care of grounds; maintenance and operation of buildings and other plant facilities; security; earthquake and disaster preparedness; environmental safety; hazardous waste disposal; property, liability and all other insurance relating to property; space and capital leasing; facility planning and management; and, central receiving. The operation and maintenance expense category should also include its allocable share of fringe benefit costs, depreciation and use allowances, and interest costs.

b. In the absence of the alternatives provided for in Section E.2.d, the expenses included in this category shall be allocated in the same manner as described in subsection 2.b for depreciation and use allowances.

5. General administration and general expenses.

a. The expenses under this heading are those that have been incurred for the general executive and administrative offices of educational institutions and other expense of a general character which do not relate solely to any major function of the institution; i.e., solely to (1) instruction, (2) organized research, (3) other sponsored activities, or (4) other institutional activities. The general administration and general expense category should also include its allocable share of fringe benefit costs, operation and maintenance expense, depreciation and use allowances, and interest costs. Examples of general administration and general expenses include: those expenses incurred by administrative offices that serve the entire university system of which the institution is a part; central offices of the institution such as the President's or Chancellor's office, the offices for institution-wide financial management, business services, budget and planning, personnel management, and safety and risk management; the office of the General Counsel; and, the operations of the central administrative management information systems. General administration and general expenses shall not include expenses incurred within non-university-wide deans' offices, academic departments, organized research units, or similar organizational units. (See subsection 6, Departmental administration expenses.)

b. In the absence of the alternatives provided for in Section E.2.d, the expenses included in this category shall be grouped first according to common major functions of the institution to which they render services or provide benefits. The aggregate expenses of each group shall then be

allocated to serviced or benefited functions on the modified total cost basis. Modified total costs consist of the same elements as those in Section G.2. When an activity included in this F&A cost category provides a service or product to another institution or organization, an appropriate adjustment must be made to either the expenses or the basis of allocation or both, to assure a proper allocation of costs.

6. Departmental administration expenses.

a. The expenses under this heading are those that have been incurred for administrative and supporting services that benefit common or joint departmental activities or objectives in academic deans' offices, academic departments and divisions, and organized research units. Organized research units include such units as institutes, study centers, and research centers. Departmental administration expenses are subject to the following limitations.

(1) Academic deans' offices. Salaries and operating expenses are limited to those attributable to administrative functions.

(2) Academic departments:

(a) Salaries and fringe benefits attributable to the administrative work (including bid and proposal preparation) of faculty (including department heads), and other professional personnel conducting research and/or instruction, shall be allowed at a rate of 3.6 percent of modified total direct costs. This category does not include professional business or professional administrative officers. This allowance shall be added to the computation of the F&A cost rate for major functions in Section G; the expenses covered by the allowance shall be excluded from the departmental administration cost pool. No documentation is required to support this allowance.

(b) Other administrative and supporting expenses incurred within academic departments are allowable provided they are treated consistently in like circumstances. This would include expenses such as the salaries of secretarial and clerical staffs, the salaries of administrative officers and assistants, travel, office supplies, stockrooms, and the like.

(3) Other fringe benefit costs applicable to the salaries and wages included in subsections (1) and (2) are allowable, as well as an appropriate share of general administration and general expenses, operation and maintenance expenses, and depreciation and/or use allowances.

(4) Federal agencies may authorize reimbursement of additional costs for department heads and faculty only in exceptional cases where an institution can demonstrate undue hardship or detriment to project performance.

b. In developing the departmental administration cost pool, special care should be exercised to ensure that costs incurred for the same purpose in like circumstances are treated consistently as either direct or F&A costs. For example, salaries of technical staff, laboratory supplies (e.g., chemicals), telephone toll charges, animals, animal care costs, computer costs, travel costs, and specialized shop costs shall be treated as direct cost wherever identifiable to a particular cost objective. Direct charging of these costs may be accomplished through specific identification of individual costs to benefiting cost objectives, or through recharge centers or specialized service facilities, as appropriate under the circumstances. The salaries of administrative and clerical staff should normally be treated as F&A costs. Direct charging of these costs may be appropriate where a major project or activity explicitly budgets for administrative or clerical services and individuals involved can be specifically identified with the project or activity. Items such as office supplies, postage, local telephone costs, and memberships shall normally be treated as F&A costs.

c. In the absence of the alternatives provided for in Section E.2.d, the expenses included in this category shall be allocated as follows:

(1) The administrative expenses of the dean's office of each college and school shall be allocated to the academic departments within that college or school on the modified total cost basis.

(2) The administrative expenses of each academic department, and the department's share of the expenses allocated in subsection (1) shall be allocated to the appropriate functions of the department on the modified total cost basis.

7. Sponsored projects administration.

a. The expenses under this heading are limited to those incurred by a separate organization(s) established primarily to administer sponsored projects, including such functions as grant and contract administration (Federal and non-Federal), special security, purchasing, personnel, administration, and editing and publishing of research and other reports. They include the salaries and expenses of the head of such organization, assistants, and immediate staff, together with the salaries and expenses of personnel engaged in supporting activities maintained by the organization, such as stock rooms, stenographic pools and the

like. This category also includes an allocable share of fringe benefit costs, general administration and general expenses, operation and maintenance expenses, depreciation/use allowances. Appropriate adjustments will be made for services provided to other functions or organizations.

b. In the absence of the alternatives provided for in Section E.2.d, the expenses included in this category shall be allocated to the major functions of the institution under which the sponsored projects are conducted on the basis of the modified total cost of sponsored projects.

c. An appropriate adjustment shall be made to eliminate any duplicate charges to sponsored agreements when this category includes similar or identical activities as those included in the general administration and general expense category or other F&A cost items, such as accounting, procurement, or personnel administration.

8. Library expenses.

a. The expenses under this heading are those that have been incurred for the operation of the library, including the cost of books and library materials purchased for the library, less any items of library income that qualify as applicable credits under Section C.5. The library expense category should also include the fringe benefits applicable to the salaries and wages included therein, an appropriate share of general administration and general expense, operation and maintenance expense, and depreciation and use allowances. Costs incurred in the purchases of rare books (museum-type books) with no value to sponsored agreements should not be allocated to them.

b. In the absence of the alternatives provided for in Section E.2.d, the expenses included in this category shall be allocated first on the basis of primary categories of users, including students, professional employees, and other users.

(1) The student category shall consist of full-time equivalent students enrolled at the institution, regardless of whether they earn credits toward a degree or certificate.

(2) The professional employee category shall consist of all faculty members and other professional employees of the institution, on a full-time equivalent basis.

(3) The other users category shall consist of all other users of library facilities.

c. Amount allocated in subsection b shall be assigned further as follows:

(1) The amount in the student category shall be assigned to the instruction function of the institution.

(2) The amount in the professional employee category shall be assigned to the major functions of the institution in proportion to the salaries and wages of all faculty members and other professional employees applicable to those functions.

(3) The amount in the other users category shall be assigned to the other institutional activities function of the institution.

9. Student administration and services.

a. The expenses under this heading are those that have been incurred for the administration of student affairs and for services to students, including expenses of such activities as deans of students, admissions, registrar, counseling and placement services, student advisers, student health and infirmary services, catalogs, and commencements and convocations. The salaries of members of the academic staff whose responsibilities to the institution require administrative work that benefits sponsored projects may also be included to the extent that the portion charged to student administration is determined in accordance with Section J.8. This expense category also includes the fringe benefit costs applicable to the salaries and wages included therein, an appropriate share of general administration and general expenses, operation and maintenance, and use allowances and/or depreciation.

b. In the absence of the alternatives provided for in Section E.2.d, the expenses in this category shall be allocated to the instruction function, and subsequently to sponsored agreements in that function.

10. Offset for F&A expenses otherwise provided for by the Federal Government.

a. The items to be accumulated under this heading are the reimbursements and other payments from the Federal Government which are made to the institution to support solely, specifically, and directly, in whole or in part, any of the administrative or service activities described in subsections 2 through 9.

b. The items in this group shall be treated as a credit to the affected individual F&A cost category before that category is allocated to benefiting functions.

G. Determination and application of F&A cost rate or rates.

1. F&A cost pools.

a. (1) Subject to subsection b, the separate categories of F&A costs allocated to each major function of the institution as prescribed in Section F shall be aggregated and treated as a common pool for that function. The amount in each pool shall be divided by the distribution base described in subsection 2 to arrive at a single F&A cost rate for each function.

(2) The rate for each function is used to distribute F&A costs to individual sponsored agreements of that function. Since a common pool is established for each major function of the institution, a separate F&A cost rate would be established for each of the major functions described in Section B.1 under which sponsored agreements are carried out.

(3) Each institution's F&A cost rate process must be appropriately designed to ensure that Federal sponsors do not in any way subsidize the F&A costs of other sponsors, specifically activities sponsored by industry and foreign governments. Accordingly, each allocation method used to identify and allocate the F&A cost pools, as described in Sections E.2 and F.2 through F.9, must contain the full amount of the institution's modified total costs or other appropriate units of measurement used to make the computations. In addition, the final rate distribution base (as defined in subsection 2) for each major function (organized research, instruction, etc., as described in Section B.1) shall contain all the programs or activities which utilize the F&A costs allocated to that major function. At the time a F&A cost proposal is submitted to a cognizant Federal agency, each institution must describe the process it uses to ensure that Federal funds are not used to subsidize industry and foreign government funded programs.

b. In some instances a single rate basis for use across the board on all work within a major function at an institution may not be appropriate. A single rate for research, for example, might not take into account those different environmental factors and other conditions which may affect substantially the F&A costs applicable to a particular segment of research at the institution. A particular segment of research may be that performed under a single sponsored agreement or it may consist of research under a group of sponsored agreements performed in a common environment. The environmental factors are not limited to the physical location of the work. Other important factors are the level of the administrative support required, the nature of the facilities or other resources employed, the scientific disciplines or technical skills

involved, the organizational arrangements used, or any combination thereof. Where a particular segment of a sponsored agreement is performed within an environment which appears to generate a significantly different level of F&A costs, provisions should be made for a separate F&A cost pool applicable to such work. The separate F&A cost pool should be developed during the regular course of the rate determination process and the separate F&A cost rate resulting therefrom should be utilized; provided it is determined that (1) such F&A cost rate differs significantly from that which would have been obtained under subsection a, and (2) the volume of work to which such rate would apply is material in relation to other sponsored agreements at the institution.

2. The distribution basis. F&A costs shall be distributed to applicable sponsored agreements and other benefiting activities within each major function (see Section B.1) on the basis of modified total direct costs, consisting of all salaries and wages, fringe benefits, materials and supplies, services, travel, and subgrants and subcontracts up to the first \$25,000 of each subgrant or subcontract (regardless of the period covered by the subgrant or subcontract). Equipment, capital expenditures, charges for patient care and tuition remission, rental costs, scholarships, and fellowships as well as the portion of each subgrant and subcontract in excess of \$25,000 shall be excluded from modified total direct costs. Other items may only be excluded where necessary to avoid a serious inequity in the distribution of F&A costs. For this purpose, a F&A cost rate should be determined for each of the separate F&A cost pools developed pursuant to subsection 1. The rate in each case should be stated as the percentage which the amount of the particular F&A cost pool is of the modified total direct costs identified with such pool.

3. Negotiated lump sum for F&A costs. A negotiated fixed amount in lieu of F&A costs may be appropriate for self-contained, off-campus, or primarily subcontracted activities where the benefits derived from an institution's F&A services cannot be readily determined. Such negotiated F&A costs will be treated as an offset before allocation to instruction, organized research, other sponsored activities, and other institutional activities. The base on which such remaining expenses are allocated should be appropriately adjusted.

4. Predetermined rates for F&A costs. Public Law 87-638 (76 Stat. 437) authorizes the use of predetermined rates in determining the "indirect costs" (F&A costs in this Circular) applicable under research agreements with educational institutions. The stated objectives of the law are to simplify the administration of cost-type research and development contracts (including grants) with educational institutions,

to facilitate the preparation of their budgets, and to permit more expeditious closeout of such contracts when the work is completed. In view of the potential advantages offered by this procedure, negotiation of predetermined rates for F&A costs for a period of two to four years should be the norm in those situations where the cost experience and other pertinent facts available are deemed sufficient to enable the parties involved to reach an informed judgment as to the probable level of F&A costs during the ensuing accounting periods.

5. Negotiated fixed rates and carry-forward provisions. When a fixed rate is negotiated in advance for a fiscal year (or other time period), the over- or under-recovery for that year may be included as an adjustment to the F&A cost for the next rate negotiation. When the rate is negotiated before the carry-forward adjustment is determined, the carry-forward amount may be applied to the next subsequent rate negotiation. When such adjustments are to be made, each fixed rate negotiated in advance for a given period will be computed by applying the expected F&A costs allocable to sponsored agreements for the forecast period plus or minus the carry-forward adjustment (over- or under-recovery) from the prior period, to the forecast distribution base. Unrecovered amounts under lump-sum agreements or cost-sharing provisions of prior years shall not be carried forward for consideration in the new rate negotiation. There must, however, be an advance understanding in each case between the institution and the cognizant Federal agency as to whether these differences will be considered in the rate negotiation rather than making the determination after the differences are known. Further, institutions electing to use this carry-forward provision may not subsequently change without prior approval of the cognizant Federal agency. In the event that an institution returns to a postdetermined rate, any over- or under-recovery during the period in which negotiated fixed rates and carry-forward provisions were followed will be included in the subsequent postdetermined rates. Where multiple rates are used, the same procedure will be applicable for determining each rate.

6. Provisional and final rates for F&A costs. Where the cognizant agency determines that cost experience and other pertinent facts do not justify the use of predetermined rates, or a fixed rate with a carry-forward, or if the parties cannot agree on an equitable rate, a provisional rate shall be established. To prevent substantial overpayment or underpayment, the provisional rate may be adjusted by the cognizant agency during the institution's fiscal year. Predetermined or fixed rates may replace provisional rates at any time prior to the close of the institution's fiscal year. If a provisional rate is not replaced by a predetermined or fixed rate prior to the end of the institution's fiscal year, a final rate will be established and upward or downward

adjustments will be made based on the actual allowable costs incurred for the period involved.

7. Fixed rates for the life of the sponsored agreement.

a. Federal agencies shall use the negotiated rates for F&A costs in effect at the time of the initial award throughout the life of the sponsored agreement. "Life" for the purpose of this subsection means each competitive segment of a project. A competitive segment is a period of years approved by the Federal funding agency at the time of the award. If negotiated rate agreements do not extend through the life of the sponsored agreement at the time of the initial award, then the negotiated rate for the last year of the sponsored agreement shall be extended through the end of the life of the sponsored agreement. Award levels for sponsored agreements may not be adjusted in future years as a result of changes in negotiated rates.

b. When an educational institution does not have a negotiated rate with the Federal Government at the time of the award (because the educational institution is a new grantee or the parties cannot reach agreement on a rate), the provisional rate used at the time of the award shall be adjusted once a rate is negotiated and approved by the cognizant agency.

8. Limitation on reimbursement of administrative costs.

a. Notwithstanding the provisions of subsection 1.a, the administrative costs charged to sponsored agreements awarded or amended (including continuation and renewal awards) with effective dates beginning on or after the start of the institution's first fiscal year which begins on or after October 1, 1991, shall be limited to 26% of modified total direct costs (as defined in subsection 2) for the total of General Administration and General Expenses, Departmental Administration, Sponsored Projects Administration, and Student Administration and Services (including their allocable share of depreciation and/or use allowances, interest costs, operation and maintenance expenses, and fringe benefits costs, as provided by Sections F.5, F.6, F.7 and F.9) and all other types of expenditures not listed specifically under one of the subcategories of facilities in Section F.

b. Existing F&A cost rates that affect institutions' fiscal years which begin on or after October 1, 1991, shall be unilaterally amended by the cognizant Federal agency to reflect the cost limitation in subsection a.

c. Permanent rates established prior to this revision which have been amended in accordance with subsection b may be renegotiated.

However, no such renegotiated rate may exceed the rate which would have been in effect if the agreement had remained in effect; nor may the administrative portion of any renegotiated rate exceed the limitation in subsection a.

d. Institutions should not change their accounting or cost allocation methods which were in effect on May 1, 1991, if the effect is to: (i) change the charging of a particular type of cost from F&A to direct, or (ii) reclassify costs, or increase allocations, from the administrative pools identified in subsection a to the other F&A cost pools or fringe benefits. Cognizant Federal agencies are authorized to permit changes where an institution's charging practices are at variance with acceptable practices followed by a substantial majority of other institutions.

9. Alternative method for administrative costs.

a. Notwithstanding the provisions of subsection 1.a, an institution may elect to claim fixed allowance for the "Administration" portion of F&A costs. The allowance could be either 24% of modified total direct costs or a percentage equal to 95% of the most recently negotiated fixed or predetermined rate for the cost pools included under "Administration" as defined in Section F.1, whichever is less, provided that no accounting or cost allocation changes with the effects described in subsection 8.d have occurred. Under this alternative, no cost proposal need be prepared for the "Administration" portion of the F&A cost rate nor is further identification or documentation of these costs required (see subsection c). Where a negotiated F&A cost agreement includes this alternative, an institution shall make no further charges for the expenditure categories described in Sections F.5, F.6, F.7 and F.9.

b. In negotiations of rates for subsequent periods, an institution that has elected the option of subsection a may continue to exercise it at the same rate without further identification or documentation of costs, provided that no accounting or cost allocation changes with the effects described in subsection 8.d have occurred.

c. If an institution elects to accept a threshold rate, it is not required to perform a detailed analysis of its administrative costs. However, in order to compute the facilities components of its F&A cost rate, the institution must reconcile its F&A cost proposal to its financial statements and make appropriate adjustments and reclassifications to identify the costs of each major function as defined in Section B.1, as well as to identify and allocate the facilities components. Administrative costs that are not identified as such by the institution's

accounting system (such as those incurred in academic departments) will be classified as instructional costs for purposes of reconciling F&A cost proposals to financial statements and allocating facilities costs.

10. Individual rate components. In order to satisfy the requirements of Section J.12.f and to provide mutually agreed upon information for management purposes, each F&A cost rate negotiation or determination shall include development of a rate for each F&A cost pool as well as the overall F&A cost rate.

11. Negotiation and approval of F&A rate.

a. Cognizant agency assignments. "A cognizant agency" means the Federal agency responsible for negotiating and approving F&A rates for an educational institution on behalf of all Federal agencies.

(1) Cost negotiation cognizance is assigned to the Department of Health and Human Services (HHS) or the Department of Defense's Office of Naval Research (DOD), normally depending on which of the two agencies (HHS or DOD) provides more funds to the educational institution for the most recent three years. Information on funding shall be derived from relevant data gathered by the National Science Foundation. In cases where neither HHS nor DOD provides Federal funding to an educational institution, the cognizant agency assignment shall default to HHS. Notwithstanding the method for cognizance determination described above, other arrangements for cognizance of a particular educational institution may also be based in part on the types of research performed at the educational institution and shall be decided based on mutual agreement between HHS and DOD.

(2) Cognizant assignments as of December 31, 1995, shall continue in effect through educational institutions' fiscal years ending during 1997, or the period covered by negotiated agreements in effect on December 31, 1995, whichever is later, except for those educational institutions with cognizant agencies other than HHS or DOD. Cognizance for these educational institutions shall transfer to HHS or DOD at the end of the period covered by the current negotiated rate agreement. After cognizance is established, it shall continue for a five-year period.

b. Acceptance of rates. The negotiated rates shall be accepted by all Federal agencies. Only under special circumstances, when required by law or regulation, may an agency use a rate different from the negotiated rate for a class of sponsored agreements or a single sponsored agreement.

c. Correcting deficiencies. The cognizant agency shall negotiate changes needed to correct systems deficiencies relating to accountability for sponsored agreements. Cognizant agencies shall address the concerns of other affected agencies, as appropriate.

d. Resolving questioned costs. The cognizant agency shall conduct any necessary negotiations with an educational institution regarding amounts questioned by audit that are due the Federal Government related to costs covered by a negotiated agreement.

e. Reimbursement. Reimbursement to cognizant agencies for work performed under Circular A-21 may be made by reimbursement billing under the Economy Act, 31 U.S.C. 1535.

f. Procedure for establishing facilities and administrative rates. The cognizant agency shall arrange with the educational institution to provide copies of rate proposals to all interested agencies. Agencies wanting such copies should notify the cognizant agency. Rates shall be established by one of the following methods:

(1) Formal negotiation. The cognizant agency is responsible for negotiating and approving rates for an educational institution on behalf of all Federal agencies. Non-cognizant Federal agencies, which award sponsored agreements to an educational institution, shall notify the cognizant agency of specific concerns (i.e., a need to establish special cost rates) which could affect the negotiation process. The cognizant agency shall address the concerns of all interested agencies, as appropriate. A pre-negotiation conference may be scheduled among all interested agencies, if necessary. The cognizant agency shall then arrange a negotiation conference with the educational institution.

(2) Other than formal negotiation. The cognizant agency and educational institution may reach an agreement on rates without a formal negotiation conference; for example, through correspondence or use of the simplified method described in this Circular.

g. Formalizing determinations and agreements. The cognizant agency shall formalize all determinations or agreements reached with an educational institution and provide copies to other agencies having an interest.

h. Disputes and disagreements. Where the cognizant agency is unable to reach agreement with an educational institution with regard to rates or audit resolution, the appeal system of the cognizant agency shall be followed for resolution of the disagreement.

H. Simplified method for small institutions.

1. General.

a. Where the total direct cost of work covered by this Circular at an institution does not exceed \$10 million in a fiscal year, the use of the simplified procedure described in subsection 2, may be used in determining allowable F&A costs. Under this simplified procedure, the institution's most recent annual financial report and immediately available supporting information with salaries and wages segregated from other costs, will be utilized as a basis for determining the F&A cost rate applicable to all sponsored agreements.

b. The simplified procedure should not be used where it produces results which appear inequitable to the Federal Government or the institution. In any such case, F&A costs should be determined through use of the regular procedure.

2. Simplified procedure.

a. Establish the total amount of salaries and wages paid to all employees of the institution.

b. Establish a F&A cost pool consisting of the expenditures (exclusive of capital items and other costs specifically identified as unallowable) which customarily are classified under the following titles or their equivalents:

(1) General administration and general expenses (exclusive of costs of student administration and services, student activities, student aid, and scholarships).

(2) Operation and maintenance of physical plant; and depreciation and use allowances; after appropriate adjustment for costs applicable to other institutional activities.

(3) Library.

(4) Department administration expenses, which will be computed as 20 percent of the salaries and expenses of deans and heads of departments.

In those cases where expenditures classified under subsection (1) have previously been allocated to other institutional activities, they may be included in the F&A cost pool. The total amount of salaries and wages included in the F&A cost pool must be separately identified.

c. Establish a salary and wage distribution base, determined by deducting from the total of salaries and wages as established in subsection a the amount of salaries and wages included under subsection b.

d. Establish the F&A cost rate, determined by dividing the amount in the F&A cost pool, subsection b, by the amount of the distribution base, subsection c.

e. Apply the F&A cost rate to direct salaries and wages for individual agreements to determine the amount of F&A costs allocable to such agreements.

J. General provisions for selected items of cost.

Sections 1 through 50 provide principles to be applied in establishing the allowability of certain items involved in determining cost. These principles should apply irrespective of whether a particular item of cost is properly treated as direct cost or F&A cost. Failure to mention a particular item of cost is not intended to imply that it is either allowable or unallowable; rather, determination as to allowability in each case should be based on the treatment provided for similar or related items of cost. In case of a discrepancy between the provisions of a specific sponsored agreement and the provisions below, the agreement should govern.

1. Advertising and public relations costs.

a. The term advertising costs means the costs of advertising media and corollary administrative costs. Advertising media include magazines, newspapers, radio and television programs, direct mail, exhibits, and the like.

b. The term public relations includes community relations and means those activities dedicated to maintaining the image of the institution or maintaining or promoting understanding and favorable relations with the community or public at large or any segment of the public.

c. The only allowable advertising costs are those which are solely for:

(1) The recruitment of personnel required for the performance by the institution of obligations arising under the sponsored agreement, when considered in conjunction with all other recruitment costs, as set forth in Section J.37;

(2) The procurement of goods and services for the performance of the

sponsored agreement;

(3) The disposal of scrap or surplus materials acquired in the performance of the sponsored agreement except when institutions are reimbursed for disposal costs at a predetermined amount in accordance with Circular A-110; or

(4) Other specific purposes necessary to meet the requirements of the sponsored agreement.

d. The only allowable public relations costs are:

(1) Costs specifically required by sponsored agreements;

(2) Costs of communicating with the public and press pertaining to specific activities or accomplishments which result from performance of sponsored agreements; or

(3) Costs of conducting general liaison with news media and government public relations officers, to the extent that such activities are limited to communication and liaison necessary to keep the public informed on matters of public concern, such as notices of contract/grant awards, financial matters, etc.

e. Costs identified in subsections c and d if incurred for more than one sponsored agreement or for both sponsored work and other work of the institution, are allowable to the extent that the principles in Sections D and E are observed.

f. Unallowable advertising and public relations costs include the following:

(1) All advertising and public relations costs other than as specified in subsections c, d, and e;

(2) Costs of convocations or other events related to instruction or other institutional activities including:

(i) Costs of displays, demonstrations, and exhibits;

(ii) Costs of meeting rooms, hospitality suites, and other special facilities used in conjunction with shows and other special events; and

(iii) Salaries and wages of employees engaged in setting up and displaying exhibits, making demonstrations, and providing briefings;

(3) Costs of promotional items and memorabilia, including models, gifts, and souvenirs;

(4) Costs of advertising and public relations designed solely to promote the institution.

2. Alcoholic beverages. Costs of alcoholic beverages are unallowable.

3. Alumni/ae activities. Costs incurred for, or in support of, alumni/ae activities and similar services are unallowable.

4. Bad debts. Any losses, whether actual or estimated, arising from uncollectible accounts and other claims, related collections costs, and related legal costs, are unallowable.

5. Civil defense costs. Civil defense costs are those incurred in planning for, and the protection of life and property against, the possible effects of enemy attack. Reasonable costs of civil defense measures (including costs in excess of normal plant protection costs, first-aid training and supplies, firefighting training, posting of additional exit notices and directions, and other approved civil defense measures) undertaken on the institution's premises pursuant to suggestions or requirements of civil defense authorities are allowable when distributed to all activities of the institution. Capital expenditures for civil defense purposes will not be allowed, but a use allowance or depreciation may be permitted in accordance with provisions set forth in Section J.12. Costs of local civil defense projects not on the institution's premises are unallowable.

6. Commencement and convocation costs. Costs incurred for commencements and convocations are unallowable, except as provided for in Section F.9.

7. Communication costs. Costs incurred for telephone services, local and long distance telephone calls, telegrams, radiograms, postage and the like, are allowable.

8. Compensation for personal services.

a. General. Compensation for personal services covers all amounts paid currently or accrued by the institution for services of employees rendered during the period of performance under sponsored agreements. Such amounts include salaries, wages, and fringe benefits (see subsection f). These costs are allowable to the extent that the total compensation to individual employees conforms to the established

policies of the institution, consistently applied, and provided that the charges for work performed directly on sponsored agreements and for other work allocable as F&A costs are determined and supported as provided below. Charges to sponsored agreements may include reasonable amounts for activities contributing and intimately related to work under the agreements, such as delivering special lectures about specific aspects of the ongoing activity, writing reports and articles, participating in appropriate seminars, consulting with colleagues and graduate students, and attending meetings and conferences. Incidental work (that in excess of normal for the individual), for which supplemental compensation is paid by an institution under institutional policy, need not be included in the payroll distribution systems described below, provided such work and compensation are separately identified and documented in the financial management system of the institution.

b. Payroll distribution.

(1) General Principles.

(a) The distribution of salaries and wages, whether treated as direct or F&A costs, will be based on payrolls documented in accordance with the generally accepted practices of colleges and universities. Institutions may include in a residual category all activities that are not directly charged to sponsored agreements, and that need not be distributed to more than one activity for purposes of identifying F&A costs and the functions to which they are allocable. The components of the residual category are not required to be separately documented.

(b) The apportionment of employees' salaries and wages which are chargeable to more than one sponsored agreement or other cost objective will be accomplished by methods which will (1) be in accordance with Sections A.2 and C, (2) produce an equitable distribution of charges for employee's activities, and (3) distinguish the employees' direct activities from their F&A activities.

(c) In the use of any methods for apportioning salaries, it is recognized that, in an academic setting, teaching, research, service, and administration are often inextricably intermingled. A precise assessment of factors that contribute to costs is not always feasible, nor is it expected. Reliance, therefore, is placed on estimates in which a degree of tolerance is appropriate.

(d) There is no single best method for documenting the distribution of charges for personal services. Methods for apportioning salaries and wages, however, must meet the criteria specified in subsection b.(2).

Examples of acceptable methods are contained in subsection c. Other methods which meet the criteria specified in subsection b.(2) also shall be deemed acceptable, if a mutually satisfactory alternative agreement is reached.

(2) Criteria for Acceptable Methods.

(a) The payroll distribution system will (i) be incorporated into the official records of the institution, (ii) reasonably reflect the activity for which the employee is compensated by the institution, and (iii) encompass both sponsored and all other activities on an integrated basis, but may include the use of subsidiary records. (Compensation for incidental work described in Section J.8.a need not be included.)

(b) The method must recognize the principle of after-the-fact confirmation or determination so that costs distributed represent actual costs, unless a mutually satisfactory alternative agreement is reached. Direct cost activities and F&A cost activities may be confirmed by responsible persons with suitable means of verification that the work was performed. Confirmation by the employee is not a requirement for either direct or F&A cost activities if other responsible persons make appropriate confirmations.

(c) The payroll distribution system will allow confirmation of activity allocable to each sponsored agreement and each of the categories of activity needed to identify F&A costs and the functions to which they are allocable. The activities chargeable to F&A cost categories or the major functions of the institution for employees whose salaries must be apportioned (see subsection b.(1)(b)), if not initially identified as separate categories, may be subsequently distributed by any reasonable method mutually agreed to, including, but not limited to, suitably conducted surveys, statistical sampling procedures, or the application of negotiated fixed rates.

(d) Practices vary among institutions and within institutions as to the activity constituting a full workload. Therefore, the payroll distribution system may reflect categories of activities expressed as a percentage distribution of total activities.

(e) Direct and F&A charges may be made initially to sponsored agreements on the basis of estimates made before services are performed. When such estimates are used, significant changes in the corresponding work activity must be identified and entered into the payroll distribution system. Short-term (such as one or two months) fluctuation between workload categories need not be considered as long as the distribution of salaries and wages is reasonable over the

longer term, such as an academic period.

(f) The system will provide for independent internal evaluations to ensure the system's effectiveness and compliance with the above standards.

(g) For systems which meet these standards, the institution will not be required to provide additional support or documentation for the effort actually performed.

c. Examples of Acceptable Methods for Payroll Distribution:

(1) Plan-Confirmation: Under this method, the distribution of salaries and wages of professorial and professional staff applicable to sponsored agreements is based on budgeted, planned, or assigned work activity, updated to reflect any significant changes in work distribution. A plan-confirmation system used for salaries and wages charged directly or indirectly to sponsored agreements will meet the following standards:

(a) A system of budgeted, planned, or assigned work activity will be incorporated into the official records of the institution and encompass both sponsored and all other activities on an integrated basis. The system may include the use of subsidiary records.

(b) The system will reasonably reflect only the activity for which the employee is compensated by the institution (compensation for incidental work described in subsection a need not be included). Practices vary among institutions and within institutions as to the activity constituting a full workload. Hence, the system will reflect categories of activities expressed as a percentage distribution of total activities. (See Section H for treatment of F&A costs under the simplified method for small institutions.)

(c) The system will reflect activity applicable to each sponsored agreement and to each category needed to identify F&A costs and the functions to which they are allocable. The system may treat F&A cost activities initially within a residual category and subsequently determine them by alternate methods as discussed in subsection b.(2)(c).

(d) The system will provide for modification of an individual's salary or salary distribution commensurate with a significant change in the employee's work activity. Short-term (such as one or two months) fluctuation between workload categories need not be considered as long as the distribution of salaries and wages is reasonable over the

longer term, such as an academic period. Whenever it is apparent that a significant change in work activity which is directly or indirectly charged to sponsored agreements will occur or has occurred, the change will be documented over the signature of a responsible official and entered into the system.

(e) At least annually a statement will be signed by the employee, principal investigator, or responsible official(s) using suitable means of verification that the work was performed, stating that salaries and wages charged to sponsored agreements as direct charges, and to residual, F&A cost or other categories are reasonable in relation to work performed.

(f) The system will provide for independent internal evaluation to ensure the system's integrity and compliance with the above standards.

(g) In the use of this method, an institution shall not be required to provide additional support or documentation for the effort actually performed.

(2) After-the-fact Activity Records: Under this system the distribution of salaries and wages by the institution will be supported by activity reports as prescribed below.

(a) Activity reports will reflect the distribution of activity expended by employees covered by the system (compensation for incidental work as described in subsection a need not be included).

(b) These reports will reflect an after-the-fact reporting of the percentage distribution of activity of employees. Charges may be made initially on the basis of estimates made before the services are performed, provided that such charges are promptly adjusted if significant differences are indicated by activity records.

(c) Reports will reasonably reflect the activities for which employees are compensated by the institution. To confirm that the distribution of activity represents a reasonable estimate of the work performed by the employee during the period, the reports will be signed by the employee, principal investigator, or responsible official(s) using suitable means of verification that the work was performed.

(d) The system will reflect activity applicable to each sponsored agreement and to each category needed to identify F&A costs and the functions to which they are allocable. The system may treat F&A cost activities initially within a residual category and subsequently determine them by alternate methods as discussed in subsection

b.(2)(c).

(e) For professorial and professional staff, the reports will be prepared each academic term, but no less frequently than every six months. For other employees, unless alternate arrangements are agreed to, the reports will be prepared no less frequently than monthly and will coincide with one or more pay periods.

(f) Where the institution uses time cards or other forms of after-the-fact payroll documents as original documentation for payroll and payroll charges, such documents shall qualify as records for this purpose, provided that they meet the requirements in subsections (a) through (e).

(3) Multiple Confirmation Records: Under this system, the distribution of salaries and wages of professorial and professional staff will be supported by records which certify separately for direct and F&A cost activities as prescribed below.

(a) For employees covered by the system, there will be direct cost records to reflect the distribution of that activity expended which is to be allocable as direct cost to each sponsored agreement. There will also be F&A cost records to reflect the distribution of that activity to F&A costs. These records may be kept jointly or separately (but are to be certified separately, see below).

(b) Salary and wage charges may be made initially on the basis of estimates made before the services are performed, provided that such charges are promptly adjusted if significant differences occur.

(c) Institutional records will reasonably reflect only the activity for which employees are compensated by the institution (compensation for incidental work as described in subsection a need not be included).

(d) The system will reflect activity applicable to each sponsored agreement and to each category needed to identify F&A costs and the functions to which they are allocable.

(e) To confirm that distribution of activity represents a reasonable estimate of the work performed by the employee during the period, the record for each employee will include: (i) the signature of the employee or of a person having direct knowledge of the work, confirming that the record of activities allocable as direct costs of each sponsored agreement is appropriate; and, (ii) the record of F&A costs will include the signature of responsible person(s) who use suitable means of verification that the work was performed and is consistent

with the overall distribution of the employee's compensated activities. These signatures may all be on the same document.

(f) The reports will be prepared each academic term, but no less frequently than every six months.

(g) Where the institution uses time cards or other forms of after-the-fact payroll documents as original documentation for payroll and payroll charges, such documents shall qualify as records for this purposes, provided they meet the requirements in subsections (a) through (f).

d. Salary rates for faculty members.

(1) Salary rates for academic year. Charges for work performed on sponsored agreements by faculty members during the academic year will be based on the individual faculty member's regular compensation for the continuous period which, under the policy of the institution concerned, constitutes the basis of his salary. Charges for work performed on sponsored agreements during all or any portion of such period are allowable at the base salary rate. In no event will charges to sponsored agreements, irrespective of the basis of computation, exceed the proportionate share of the base salary for that period. This principle applies to all members of the faculty at an institution. Since intra-university consulting is assumed to be undertaken as a university obligation requiring no compensation in addition to full-time base salary, the principle also applies to faculty members who function as consultants or otherwise contribute to a sponsored agreement conducted by another faculty member of the same institution. However, in unusual cases where consultation is across departmental lines or involves a separate or remote operation, and the work performed by the consultant is in addition to his regular departmental load, any charges for such work representing extra compensation above the base salary are allowable provided that such consulting arrangements are specifically provided for in the agreement or approved in writing by the sponsoring agency.

(2) Periods outside the academic year.

(a) Except as otherwise specified for teaching activity in subsection (b), charges for work performed by faculty members on sponsored agreements during the summer months or other period not included in the base salary period will be determined for each faculty member at a rate not in excess of the base salary divided by the period to which the base salary relates, and will be limited to charges made in accordance with other parts of this section. The base salary period used in computing charges for work performed during the summer months will

be the number of months covered by the faculty member's official academic year appointment.

(b) Charges for teaching activities performed by faculty members on sponsored agreements during the summer months or other periods not included in the base salary period will be based on the normal policy of the institution governing compensation to faculty members for teaching assignments during such periods.

(3) Part-time faculty. Charges for work performed on sponsored agreements by faculty members having only part-time appointments will be determined at a rate not in excess of that regularly paid for the part-time assignments. For example, an institution pays \$5000 to a faculty member for half-time teaching during the academic year. He devoted one-half of his remaining time to a sponsored agreement. Thus, his additional compensation, chargeable by the institution to the agreement, would be one-half of \$5000, or \$2500.

e. Noninstitutional professional activities. Unless an arrangement is specifically authorized by a Federal sponsoring agency, an institution must follow its institution-wide

policies and practices concerning the permissible extent of professional services that can be provided outside the institution for noninstitutional compensation. Where such institution-wide policies do not exist or do not adequately define the permissible extent of consulting or other noninstitutional activities undertaken for extra outside pay, the Federal Government may require that the effort of professional staff working on sponsored agreements be allocated between (1) institutional activities, and (2) noninstitutional professional activities. If the sponsoring agency considers the extent of noninstitutional professional effort excessive, appropriate arrangements governing compensation will be negotiated on a case-by-case basis.

f. Fringe benefits.

(1) Fringe benefits in the form of regular compensation paid to employees during periods of authorized absences from the job, such as for annual leave, sick leave, military leave, and the like, are allowable, provided such costs are distributed to all institutional activities in proportion to the relative amount of time or effort actually devoted by the employees. See Section J.40 for treatment of sabbatical leave.

(2) Fringe benefits in the form of employer contributions or expenses for social security, employee insurance, workmen's compensation

insurance, tuition or remission of tuition for individual employees are allowable, provided such benefits are granted in accordance with established educational institutional policies, and are distributed to all institutional activities on an equitable basis. Tuition benefits for family members other than the employee are unallowable for fiscal years beginning after September 30, 1998. See Section J.41.b, Scholarships and student aid costs, for treatment of tuition remission provided to students.

(3) Rules for pension plan costs are as follows:

(a) Costs of the institution's pension plan which are incurred in accordance with the established policies of the institution are allowable, provided: (i) such policies meet the test of reasonableness, (ii) the methods of cost allocation are equitable for all activities, (iii) the amount of pension cost assigned to each fiscal year is determined in accordance with subsection (b), and (iv) the cost assigned to a given fiscal year is paid or funded for all plan participants within six months after the end of that year. However, increases to normal and past service pension costs caused by a delay in funding the actuarial liability beyond 30 days after each quarter of the year to which such costs are assignable are unallowable.

(b) The amount of pension cost assigned to each fiscal year shall be determined in accordance with generally accepted accounting principles. Institutions may elect to follow the "Cost Accounting Standard for Composition and Measurement of Pension Cost" (48 Part 9904-412).

(c) Premiums paid for pension plan termination insurance pursuant to the Employee Retirement Income Security Act (ERISA) of 1974 (Pub. L. 93-406) are allowable. Late payment charges on such premiums are unallowable. Excise taxes on accumulated funding deficiencies and prohibited transactions of pension plan fiduciaries imposed under ERISA are also unallowable.

(4) Fringe benefits may be assigned to cost objectives by identifying specific benefits to specific individual employees or by allocating on the basis of institution-wide salaries and wages of the employees receiving the benefits. When the allocation method is used, separate allocations must be made to selective groupings of employees, unless the institution demonstrates that costs in relationship to salaries and wages do not differ significantly for different groups of employees. Fringe benefits shall be treated in the same manner as the salaries and wages of the employees receiving the benefits. The benefits related to salaries and wages treated as direct costs shall also be treated as

direct costs; the benefits related to salaries and wages treated as F&A costs shall be treated as F&A costs.

g. Institution-furnished automobiles. That portion of the cost of institution-furnished automobiles that relates to personal use by employees (including transportation to and from work) is unallowable regardless of whether the cost is reported as taxable income to the employees.

9. Contingency provisions. Contributions to a contingency reserve or any similar provision made for events, the occurrence of which cannot be foretold with certainty as to time, intensity, or with an assurance of their happening, are unallowable. (See also Section J.21.c.)

10. Deans of faculty and graduate schools. The salaries and expenses of deans of faculty and graduate schools, or their equivalents, and their staffs, are allowable.

11. Defense and prosecution of criminal and civil proceedings, claims, appeals and patent infringement.

a. Definitions.

"Conviction," as used herein, means a judgment or conviction of a criminal offense by any court of competent jurisdiction, whether entered upon verdict or a plea, including a conviction due to a plea of nolo contendere.

"Costs," include, but are not limited to, administrative and clerical expenses; the cost of legal services, whether performed by in-house or private counsel; the costs of the services of accountants, consultants, or others retained by the institution to assist it; costs of employees, officers and trustees, and any similar costs incurred before, during, and after commencement of a judicial or administrative proceeding that bears a direct relationship to the proceedings.

"Fraud," as used herein, means (i) acts of fraud or corruption or attempts to defraud the Federal Government or to corrupt its agents, (ii) acts that constitute a cause for debarment or suspension (as specified in agency regulations), and (iii) acts which violate the False Claims Act, 31 U.S.C., sections 3729-3731, or the Anti-kickback Act, 41 U.S.C., sections 51 and 54.

"Penalty," does not include restitution, reimbursement, or compensatory damages.

"Proceeding," includes an investigation.

b. (1) Except as otherwise described herein, costs incurred in connection with any criminal, civil or administrative proceeding (including filing of a false certification) commenced by the Federal Government, or a State, local or foreign government, are not allowable if the proceeding (a) relates to a violation of, or failure to comply with, a Federal, State, local or foreign statute or regulation, by the institution (including its agents and employees); and (b) results in any of the following dispositions:

(i) In a criminal proceeding, a conviction.

(ii) In a civil or administrative proceeding involving an allegation of fraud or similar misconduct, a determination of institutional liability.

(iii) In the case of any civil or administrative proceeding, the imposition of a monetary penalty.

(iv) A final decision by an appropriate Federal official to debar or suspend the institution, to rescind or void an award, or to terminate an award for default by reason of a violation or failure to comply with a law or regulation.

(v) A disposition by consent or compromise, if the action could have resulted in any of the dispositions described in subsections (i) through (iv).

(2) If more than one proceeding involves the same alleged misconduct, the costs of all such proceedings shall be unallowable if any one of them results in one of the dispositions shown in subsection b.

c. If a proceeding referred to in subsection b is commenced by the Federal Government and is resolved by consent or compromise pursuant to an agreement entered into by the institution and the Federal Government, then the costs incurred by the institution in connection with such proceedings that are otherwise not allowable under subsection b may be allowed to the extent specifically provided in such agreement.

d. If a proceeding referred to in subsection b is commenced by a State, local or foreign government, the authorized Federal official may allow the costs incurred by the institution for such proceedings, if such authorized official determines that the costs were incurred as a result of (1) a specific term or condition of a federally-sponsored agreement, or (2) specific written direction of an authorized official of the

sponsoring agency.

e. Costs incurred in connection with proceedings described in subsection b, but which are not made unallowable by that subsection, may be allowed by the Federal Government, but only to the extent that:

(1) The costs are reasonable in relation to the activities required to deal with the proceeding and the underlying cause of action;

(2) Payment of the costs incurred, as allowable and allocable costs, is not prohibited by any other provision(s) of the sponsored agreement;

(3) The costs are not otherwise recovered from the Federal Government or a third party, either directly as a result of the proceeding or otherwise; and,

(4) The percentage of costs allowed does not exceed the percentage determined by an authorized Federal official to be appropriate considering the complexity of procurement litigation, generally accepted principles governing the award of legal fees in civil actions involving the United States as a party, and such other factors as may be appropriate. Such percentage shall not exceed 80 percent. However, if an agreement reached under subsection c has explicitly considered this 80 percent limitation and permitted a higher percentage, then the full amount of costs resulting from that agreement shall be allowable.

f. Costs incurred by the institution in connection with the defense of suits brought by its employees or ex-employees under section 2 of the Major Fraud Act of 1988 (Pub. L. 100-700), including the cost of all relief necessary to make such employee whole, where the institution was found liable or settled, are unallowable.

g. Costs of legal, accounting, and consultant services, and related costs, incurred in connection with defense against Federal Government claims or appeals, or the prosecution of claims or appeals against the Federal Government, are unallowable.

h. Costs of legal, accounting, and consultant services, and related costs, incurred in connection with patent infringement litigation, are unallowable unless otherwise provided for in the sponsored agreements.

i. Costs which may be unallowable under this section, including directly associated costs, shall be segregated and accounted for by the institution separately. During the pendency of any proceeding covered by subsections b and f, the Federal Government shall generally

withhold payment of such costs. However, if in the best interests of the Federal Government, the Federal Government may provide for conditional payment upon provision of adequate security, or other adequate assurance, and agreement by the institution to repay all unallowable costs, plus interest, if the costs are subsequently determined to be unallowable.

12. Depreciation and use allowances. Institutions may be compensated for the use of their buildings, capital improvements, and equipment, provided that they are used, needed in the institutions' activities, and properly allocable to sponsored agreements. Such compensation shall be made by computing either depreciation or use allowance. Use allowances are the means of providing such compensation when depreciation or other equivalent costs are not computed. The allocation for depreciation or use allowance shall be made in accordance with Section F.2. Depreciation and use allowances are computed applying the following rules:

a. The computation of depreciation or use allowances shall be based on the acquisition cost of the assets involved. For this purpose, the acquisition cost will exclude (1) the cost of land; (2) any portion of the cost of buildings and equipment borne by or donated by the Federal Government, irrespective of where title was originally vested or where it is presently located; and (3) any portion of the cost of buildings and equipment contributed by or for the institution where law or agreement prohibit recovery. For an asset donated to the institution by a third party, its fair market value at the time of the donation shall be considered as the acquisition cost.

b. In the use of the depreciation method, the following shall be observed:

(1) The period of useful service or useful life established in each case for usable capital assets must take into consideration such factors as type of construction, nature of the equipment, technological developments in the particular area, and the renewal and replacement policies followed for the individual items or classes of assets involved.

(2) The depreciation method used to charge the cost of an asset (or group of assets) to accounting periods shall reflect the pattern of consumption of the asset during its useful life. In the absence of clear evidence indicating that the expected consumption of the asset will be significantly greater in the early portions than in the later portions of its useful life, the straight-line method shall be presumed to be the appropriate method. Depreciation methods once used shall not be

changed unless approved in advance by the cognizant Federal agency.

(3) Where the depreciation method is introduced to replace the use allowance method, depreciation shall be computed as if the asset had been depreciated over its entire life (i.e., from the date the asset was acquired and ready for use to the date of disposal or withdrawal from service). The aggregate amount of use allowances and depreciation attributable to an asset (including imputed depreciation applicable to periods prior to the conversion to the use allowance method as well as depreciation after the conversion) may be less than, and in no case, greater than the total acquisition cost of the asset.

(4) When the depreciation method is used for buildings, a building "shell" may be treated separately from other building components, such as plumbing system and heating and air conditioning system. Each component item may then be depreciated over its estimated useful life. On the other hand, the entire building, including the shell and all components, may be treated as a single asset and depreciated over a single useful life.

(5) Where the depreciation method is used for a particular class of assets, no depreciation may be allowed on any such assets that have outlived their depreciable lives. (See also subsection c.(3).)

c. Under the use allowance method, the following shall be observed:

(1) The use allowance for buildings and improvements (including improvements such as paved parking areas, fences, and sidewalks) will be computed at an annual rate not exceeding two percent of acquisition cost. The use allowance for equipment will be computed at an annual rate not exceeding six and two-thirds percent of acquisition cost.

(2) In contrast to the depreciation method, the entire building must be treated as a single asset without separating its "shell" from other building components under the use allowance method. The entire building must be treated as a single asset, and the two-percent use allowance limitation must be applied to all parts of the building. The two-percent limitation, however, need not be applied to equipment or other assets that are merely attached or fastened to the building but not permanently fixed and are used as furnishings, decorations or for specialized purposes (e.g., dentist chairs and dental treatment units, counters, laboratory benches bolted to the floor, dishwashers, and carpeting). Such equipment and assets will be considered as not being permanently fixed to the building if they can be removed without the need for costly or extensive alterations or repairs to the building to

make the space usable for other purposes. Equipment and assets which meet these criteria will be subject to the six and two-thirds percent equipment use allowance.

(3) A reasonable use allowance may be negotiated for any assets that are considered to be fully depreciated, after taking into consideration the amount of depreciation previously charged to the Federal Government, the estimated useful life remaining at the time of negotiation, the effect of any increased maintenance charges, decreased efficiency due to age, and any other factors pertinent to the utilization of the asset for the purpose contemplated.

(4) Notwithstanding subsection(3), once an educational institution converts from one cost recovery methodology to another, acquisition costs not recovered may not be used in the calculation of the use allowance in subsection(3).

d. Except as otherwise provided in subsections b and c, a combination of the depreciation and use allowance methods may not be used, in like circumstances, for a single class of assets (e.g., buildings, office equipment, and computer equipment).

e. Charges for use allowances or depreciation must be supported by adequate property records, and physical inventories must be taken at least once every two years to ensure that the assets exist and are usable, used, and needed. Statistical sampling techniques may be used in taking these inventories. In addition, when the depreciation method is used, adequate depreciation records showing the amount of depreciation taken each period must also be maintained.

f. This section applies to the largest college and university recipients of Federal research and development funds as displayed in Exhibit A.

(1) Institutions shall expend currently, or reserve for expenditure within the next five years, the portion of F&A cost payments made for depreciation or use allowances under sponsored research agreements, consistent with Section F.2, to acquire or improve research facilities. This provision applies only to Federal agreements which reimburse F&A costs at a full negotiated rate. These funds may only be used for (a) liquidation of the principal of debts incurred to acquire assets that are used directly for organized research activities, or (b) payments to acquire, repair, renovate, or improve buildings or equipment directly used for organized research. For buildings or equipment not exclusively used for organized research activity, only appropriately proportionate amounts will be considered to have been expended for research facilities.

(2) An assurance that an amount equal to the Federal reimbursements has been appropriately expended or reserved to acquire or improve research facilities shall be submitted as part of each F&A cost proposal submitted to the cognizant Federal agency which is based on costs incurred on or after October 1, 1991. This assurance will cover the cumulative amounts of funds received and expended during the period beginning after the period covered by the previous assurance and ending with the fiscal year on which the proposal is based. The assurance shall also cover any amounts reserved from a prior period in which the funds received exceeded the amounts expended.

13. Donations and contributions.

a. The value of donated services and property are not allowable either as a direct or F&A cost, except that depreciation or use allowances on donated assets are permitted in accordance with Section J.12.a. The value of donated services and property may be used to meet cost sharing or matching requirements, in accordance with Circular A-110.

b. Donations or contributions made by the institution, regardless of the recipient, are unallowable.

14. Employee morale, health, and welfare costs and credits. The costs of house publications, health or first-aid clinics and/or infirmaries, recreational activities, food services, employees' counseling services, and other expenses incurred in accordance with the institution's established practice or custom for the improvement of working conditions, employer-employee relations, employee morale, and employee performance, are allowable. Such costs will be equitably apportioned to all activities of the institution. Income generated from any of these activities will be credited to the cost thereof unless such income has been irrevocably set over to employee welfare organizations. Losses resulting from operating food services are allowable only if the institution's objective is to operate such services on a break-even basis. Losses sustained because of operating objectives other than the above are allowable only (a) where the institution can demonstrate unusual circumstances, and (b) with the approval of the cognizant Federal agency.

15. Entertainment costs. Costs of entertainment, including amusement, diversion, and social activities and any costs directly associated with such costs (such as tickets to shows or sports events, meals, lodging, rentals, transportation, and gratuities) are unallowable.

16. Equipment and other capital expenditures.

a. For purposes of this subsection, the following definitions apply:

(1) "Equipment" means an article of nonexpendable, tangible personal property having a useful life of more than one year and an acquisition cost which equals or exceeds the lesser of the capitalization level established by the organization for financial statement purposes, or \$5000. The unamortized portion of any equipment written off as a result of a change in capitalization levels may be recovered by continuing to claim the otherwise allowable use allowances or depreciation on the equipment, or by amortizing the amount to be written off over a period of years negotiated with the cognizant agency.

(2) "Capital expenditures" means the cost of the asset including the cost to put it in place. Capital expenditure for equipment, for example, means the net invoice price of the equipment, including the cost of any modifications, attachments, accessories, or auxiliary apparatus necessary to make it usable for the purpose for which it is acquired. Ancillary charges, such as taxes, duty, protective in transit insurance, freight, and installation may be included in, or excluded from, capital expenditure cost in accordance with the institution's regular accounting practices.

(3) "Special purpose equipment" means equipment which is used only for research, medical, scientific, or other technical activities.

(4) "General purpose equipment" means equipment, the use of which is not limited only to research, medical, scientific or other technical activities. Examples of general purpose equipment include office equipment and furnishings, air conditioning equipment, reproduction and printing equipment, motor vehicles, and automatic data processing equipment.

b. The following rules of allowability shall apply to equipment and other capital expenditures:

(1) Capital expenditures for general purpose equipment, buildings, and land are unallowable as direct charges, except where approved in advance by the sponsoring agency.

(2) Expenditures for special purpose equipment are allowable as direct charges with the approval of the sponsoring agency.

(3) Capital expenditures for improvements to land, buildings, or equipment which materially increase their value or useful life are unallowable as direct charges, except where approved in advance by the sponsoring agency.

(4) Capital expenditures are unallowable as F&A costs. See Section J.12 for allowability of depreciation or use allowances on buildings, capital improvements, and equipment. Also see Section J.38 for allowability of rental costs on land, buildings, and equipment.

17. Executive lobbying costs. Costs incurred in attempting to improperly influence either directly or indirectly, an employee or officer of the Executive Branch of the Federal Government to give consideration or to act regarding a sponsored agreement or a regulatory matter are unallowable. Improper influence means any influence that induces or tends to induce a Federal employee or officer to give consideration or to act regarding a federally-sponsored agreement or regulatory matter on any basis other than the merits of the matter.

18. Fines and penalties. Costs resulting from violations of, or failure of the institution to comply with, Federal, State, and local or foreign laws and regulations are unallowable, except when incurred as a result of compliance with specific provisions of the sponsored agreement, or instructions in writing from the authorized official of the sponsoring agency authorizing in advance such payments.

19. Goods or services for personal use. Costs of goods or services for personal use of the institution's employees are unallowable regardless of whether the cost is reported as taxable income to the employees.

20. Housing and personal living expenses.

a. Costs of housing (e.g., depreciation, maintenance, utilities, furnishings, rent, etc.), housing allowances and personal living expenses for/of the institution's officers are unallowable regardless of whether the cost is reported as taxable income to the employees.

b. The term "officers" includes current and past officers.

21. Insurance and indemnification.

a. Costs of insurance required or approved, and maintained, pursuant to the sponsored agreement, are allowable.

b. Costs of other insurance maintained by the institution in connection with the general conduct of its activities, are allowable subject to the following limitations: (1) types and extent and cost of coverage must be in accordance with sound institutional practice; (2) costs of insurance or of any contributions to any reserve covering the risk of loss of or damage to federally-owned property are unallowable, except to the extent that the Federal Government has specifically required or

approved such costs; and (3) costs of insurance on the lives of officers or trustees are unallowable except where such insurance is part of an employee plan which is not unduly restricted.

c. Contributions to a reserve for a self-insurance program are allowable, to the extent that the types of coverage, extent of coverage, and the rates and premiums would have been allowed had insurance been purchased to cover the risks.

d. Actual losses which could have been covered by permissible insurance (whether through purchased insurance or self-insurance) are unallowable, unless expressly provided for in the sponsored agreement, except that costs incurred because of losses not covered under existing deductible clauses for insurance coverage provided in keeping with sound management practice as well as minor losses not covered by insurance, such as spoilage, breakage and disappearance of small hand tools, which occur in the ordinary course of operations, are allowable.

e. Indemnification includes securing the institution against liabilities to third persons and other losses not compensated by insurance or otherwise. The Federal Government is obligated to indemnify the institution only to the extent expressly provided for in the sponsored agreement, except as provided in subsection d.

f. Insurance against defects. Costs of insurance with respect to any costs incurred to correct defects in the institution's materials or workmanship are unallowable.

g. Medical liability (malpractice) insurance is an allowable cost of research programs only to the extent that the research involves human subjects. Medical liability insurance costs shall be treated as a direct cost and shall be assigned to individual projects based on the manner in which the insurer allocates the risk to the population covered by the insurance.

22. Interest, fund raising, and investment management costs.

a. Costs incurred for interest on borrowed capital or temporary use of endowment funds, however represented, are unallowable, except as indicated in subsection e.

b. Costs of organized fund raising, including financial campaigns, endowment drives, solicitation of gifts and bequests, and similar expenses incurred solely to raise capital or obtain contributions, are unallowable.

c. Costs of investment counsel and staff and similar expenses incurred solely to enhance income from investments are unallowable.

d. Costs related to the physical custody and control of monies and securities are allowable.

e. The cost of interest paid to an external party is allowable where associated with the following assets, provided the assets are used in support of sponsored agreements, and the total cost (including depreciation or use allowance, operation and maintenance costs, interest, etc.) does not exceed the rental cost of comparable assets in the same locality.

(1) Buildings acquired or completed on or after July 1, 1982.

(2) Major reconstruction and remodeling of existing buildings completed on or after July 1, 1982.

(3) Acquisition or fabrication of capital equipment (as defined in Section J.16, Equipment and other capital expenditures) completed on or after July 1, 1982, costing \$10,000 or more, if agreed to by the Federal Government.

f. Interest on debt incurred after the effective date of this revision to acquire, replace or renovate capital assets (including renovations, alterations, equipment, land, and capital assets acquired through capital leases), acquired after the effective date of this revision and used in support of sponsored agreements is subject to the following conditions:

(1) For facilities costing over \$500,000, the educational institution shall prepare, prior to the acquisition or replacement of the facility, a lease-purchase analysis in accordance with §____.44 of OMB Circular A-110, which shows that a financed purchase, including a capital lease is less costly to the educational institution than other operating lease alternatives, on a net present value basis. Discount rates used shall be equal to the educational institution's anticipated interest rates and shall be no higher than the fair market rate available to the educational institution from an unrelated ("arm's length") third-party. The lease-purchase analysis shall include a comparison of the net present value of the projected total cost comparisons of both alternatives over the period the asset is expected to be used by the educational institution. The cost comparisons associated with purchasing the facility shall include the estimated purchase price, anticipated operating and maintenance costs (including property taxes, if applicable) not included in the debt financing, less any estimated asset

salvage value at the end of the defined period. The cost comparison for a capital lease shall include the estimated total lease payments, any estimated bargain purchase option, operating and maintenance costs, and taxes not included in the capital leasing arrangement, less any estimated credits due under the lease at the end of the defined period. Projected operating lease costs shall be based on the anticipated cost of leasing comparable facilities at fair market rates under rental agreements that would be renewed or reestablished over the period defined above, and any expected maintenance costs and allowable property taxes to be borne by the educational institution directly or as part of the lease arrangement.

(2) The actual interest cost claimed is predicated upon interest rates that are no higher than the fair market rate available to the educational institution from an unrelated (arm's length) third party.

(3) Investment earnings, including interest income on bond or loan principal, pending payment of the construction or acquisition costs, are used to offset allowable interest cost. Arbitrage earnings reportable to the Internal Revenue Service are not required to be offset against allowable interest costs.

(4) Reimbursements are limited to the least costly alternative based on the total cost analysis required under subsection (1). For example, if an operating lease is determined to be less costly than purchasing through debt financing, then reimbursement is limited to the amount determined if leasing had been used. In all cases where a lease-purchase analysis is required to be performed, Federal reimbursement shall be based upon the least expensive alternative.

(5) Educational institutions are also subject to the following conditions:

(a) For debt arrangements over \$1 million, unless the educational institution makes an initial equity contribution to the asset purchase of 25 percent or more, educational institutions shall reduce claims for interest cost by an amount equal to imputed interest earnings on excess cash flow, which is to be calculated as follows. Annually, educational institutions shall prepare a cumulative (from the inception of the project) report of monthly cash flows that includes inflows and outflows, regardless of the funding source. Inflows consist of depreciation expense, amortization of capitalized construction interest, and annual interest cost. For cash flow calculations, the annual inflow figures shall be divided by the number of months in the year (i.e., usually 12) that the building is in service for monthly amounts. Outflows consist of initial equity contributions, debt principal

payments (less the pro rata share attributable to the unallowable costs of land) and interest payments. Where cumulative inflows exceed cumulative outflows, interest shall be calculated on the excess inflows for that period and be treated as a reduction to allowable interest cost. The rate of interest to be used to compute earnings on excess cash flows shall be the three-month Treasury bill closing rate as of the last business day of that month.

(b) Substantial relocation of federally-sponsored activities from a facility financed by indebtedness, the cost of which was funded in whole or part through Federal reimbursements, to another facility prior to the expiration of a period of 20 years requires notice to the cognizant agency. The extent of the relocation, the amount of the Federal participation in the financing, and the depreciation and interest charged to date may require negotiation and/or downward adjustments of replacement space charged to Federal programs in the future.

(c) The allowable costs to acquire facilities and equipment are limited to a fair market value available to the educational institution from an unrelated (arm's length) third party.

(6) The following definitions are to be used for purposes of this section:

(a) "Initial equity contribution" means the amount or value of contributions made by non-Federal entities for the acquisition of the asset prior to occupancy of facilities.

(b) "Asset costs" means the capitalizable costs of an asset, including construction costs, acquisition costs, and other such costs capitalized in accordance with Generally Accepted Accounting Principles (GAAP).

23. Labor relations costs. Costs incurred in maintaining satisfactory relations between the institution and its employees, including costs of labor management committees, employees' publications, and other related activities, are allowable.

24. Lobbying. Reference is made to the common rule published at 55 FR 6736 (2/26/90), and OMB's governmentwide guidance, amendments to OMB's governmentwide guidance, and OMB's clarification notices published at 54 FR 52306 (12/20/89), 61 FR 1412 (1/19/96), 55 FR 24540 (6/15/90) and 57 FR 1772 (1/15/92), respectively. In addition, the following restrictions shall apply:

a. Notwithstanding other provisions of this Circular, costs associated with the following activities are unallowable:

(1) Attempts to influence the outcomes of any Federal, State, or local election, referendum, initiative, or similar procedure, through in kind or cash contributions, endorsements, publicity, or similar activity;

(2) Establishing, administering, contributing to, or paying the expenses of a political party, campaign, political action committee, or other organization established for the purpose of influencing the outcomes of elections;

(3) Any attempt to influence (i) the introduction of Federal or State legislation, (ii) the enactment or modification of any pending Federal or State legislation through communication with any member or employee of the Congress or State legislature (including efforts to influence State or local officials to engage in similar lobbying activity, or (iii) any government official or employee in connection with a decision to sign or veto enrolled legislation;

(4) Any attempt to influence (i) the introduction of Federal or State legislation; or (ii) the enactment or modification of any pending Federal or State legislation by preparing, distributing, or using publicity or propaganda, or by urging members of the general public, or any segment thereof, to contribute to or participate in any mass demonstration, march, rally, fund raising drive, lobbying campaign or letter writing or telephone campaign; or

(5) Legislative liaison activities, including attendance at legislative sessions or committee hearings, gathering information regarding legislation, and analyzing the effect of legislation, when such activities are carried on in support of or in knowing preparation for an effort to engage in unallowable lobbying.

b. The following activities are excepted from the coverage of subsection a:

(1) Technical and factual presentations on topics directly related to the performance of a grant, contract, or other agreement (through hearing testimony, statements, or letters to the Congress or a State legislature, or subdivision, member, or cognizant staff member thereof), in response to a documented request (including a Congressional Record notice requesting testimony or statements for the record at a regularly scheduled hearing) made by the recipient member, legislative body or subdivision, or a cognizant staff member thereof, provided such information is readily obtainable and can be readily put in deliverable form, and further provided that costs under this section for travel, lodging or meals are unallowable unless incurred to offer testimony at a regularly scheduled Congressional hearing pursuant to a written

request for such presentation made by the Chairman or Ranking Minority Member of the Committee or Subcommittee conducting such hearings;

(2) Any lobbying made unallowable by subsection a.(3) to influence State legislation in order to directly reduce the cost, or to avoid material impairment of the institution's authority to perform the grant, contract, or other agreement; or

(3) Any activity specifically authorized by statute to be undertaken with funds from the grant, contract, or other agreement.

c. When an institution seeks reimbursement for F&A costs, total lobbying costs shall be separately identified in the F&A cost rate proposal, and thereafter treated as other unallowable activity costs in accordance with the procedures of Section B.1.d.

d. Institutions shall submit as part of their annual F&A cost rate proposal a certification that the requirements and standards of this section have been complied with.

e. Institutions shall maintain adequate records to demonstrate that the determination of costs as being allowable or unallowable pursuant to this section complies with the requirements of this Circular.

f. Time logs, calendars, or similar records shall not be required to be created for purposes of complying with this section during any particular calendar month when: (1) the employee engages in lobbying (as defined in subsections a and b) 25 percent or less of the employee's compensated hours of employment during that calendar month, and (2) within the preceding five-year period, the institution has not materially misstated allowable or unallowable costs of any nature, including legislative lobbying costs. When conditions (1) and (2) are met, institutions are not required to establish records to support the allowability of claimed costs in addition to records already required or maintained. Also, when conditions (1) and (2) are met, the absence of time logs, calendars, or similar records will not serve as a basis for disallowing costs by contesting estimates of lobbying time spent by employees during a calendar month.

g. Agencies shall establish procedures for resolving in advance, in consultation with OMB, any significant questions or disagreements concerning the interpretation or application of this section. Any such advance resolutions shall be binding in any subsequent settlements, audits, or investigations with respect to that grant or contract for purposes of interpretation of this Circular, provided, however, that this

shall not be construed to prevent a contractor or grantee from contesting the lawfulness of such a determination.

25. Losses on other sponsored agreements or contracts. Any excess of costs over income under any other sponsored agreement or contract of any nature is unallowable. This includes, but is not limited to, the institution's contributed portion by reason of cost-sharing agreements or any under-recoveries through negotiation of flat amounts for F&A costs.

26. Maintenance and repair costs. Costs incurred for necessary maintenance, repair or upkeep of property (including Federal property unless otherwise provided for) which neither add to the permanent value of the property nor appreciably prolong its intended life but keep it in an efficient operating condition, are allowable.

27. Material costs. Costs incurred for purchased materials, supplies, and fabricated parts directly or indirectly related to the sponsored agreement, are allowable. Purchases made specifically for the sponsored agreement should be charged thereto at their actual prices after deducting all cash discounts, trade discounts, rebates, and allowances received by the institution. Withdrawals from general stores or stockrooms should be charged at their cost under any recognized method of pricing stores withdrawals conforming to sound accounting practices consistently followed by the institution. Incoming transportation charges are a proper part of material cost. Direct material cost should include only the materials and supplies actually used for the performance of the sponsored agreement, and due credit should be given for any excess materials retained, or returned to vendors. Due credit should be given for all proceeds or value received for any scrap resulting from work under the sponsored agreement. Where federally-donated or furnished materials is used in performing the sponsored agreement, such material will be used without charge.

28. Memberships, subscriptions and professional activity costs.

a. Costs of the institution's membership in business, technical, and professional organizations are allowable.

b. Costs of the institution's subscriptions to business, professional, and technical periodicals are allowable.

c. Costs of meetings and conferences, when the primary purpose is the dissemination of technical information, are allowable. This includes costs of meals, transportation, rental of facilities, and other items incidental such meetings or conferences.

d. Costs of membership in any civic or community organization are unallowable.

e. Costs of membership in any country club or social or dining club or organization are unallowable.

29. Patent costs. Costs of preparing disclosures, reports, and other documents required by the sponsored agreement, and of searching the art to the extent necessary to make such invention disclosures, are allowable. In accordance with the clauses of the sponsored agreement relating to patents, costs of preparing documents and any other patent costs, in connection with the filing of a patent application where title is conveyed to the Federal Government, are allowable. (See also Section J.39.)

30. Plant security costs. Necessary expenses incurred to comply with security requirements, including wages, uniforms and equipment of personnel engaged in plant protection, are allowable.

31. Preagreement costs. Costs incurred prior to the effective date of the sponsored agreement, whether or not they would have been allowable thereunder if incurred after such date, are unallowable thereunder if incurred after such date, are unallowable unless approved by the sponsoring agency.

32. Professional services costs.

a. Costs of professional and consulting services, including legal services rendered by the members of a particular profession who are not employees of the institution, are allowable, subject to subsection b and Section J.11 when reasonable in relation to the services rendered and when not contingent upon recovery of the costs from the Federal Government. Retainer fees, to be allowable, must be reasonably supported by evidence of services rendered.

b. Factors to be considered in determining the allowability of costs in a particular case include (1) the past pattern of such costs, particularly in the years prior to the award of sponsored agreements; (2) the impact of sponsored agreements on the institution's total activity; (3) the nature and scope of managerial services expected of the institution's own organizations; and (4) whether the proportion of Federal Government work to the institution's total activity is such as to influence the institution in favor of incurring the cost, particularly where the services rendered are not of a continuing nature and have little relationship to work under sponsored agreements.

33. Profits and losses on disposition of plant equipment or other capital assets. Profits or losses arising from the sale or exchange of plant, facilities, equipment or other capital assets, including sale or exchange of either short-term or long-term investments, shall not be considered in computing the costs of sponsored agreements except for pension plans as provided in Section J.8.f. When assets acquired with Federal funds, in part or wholly, are disposed of, the distribution of the proceeds shall be made in accordance with Circular A-110.

34. Proposal costs. Proposal costs are the costs of preparing bids or proposals on potential federally and non-federally-sponsored agreements or projects, including the development of data necessary to support the institution's bids or proposals. Proposal costs of the current accounting period of both successful and unsuccessful bids and proposals normally should be treated as F&A costs and allocated currently to all activities of the institution, and no proposal costs of past accounting periods will be allocable to the current period. However, the institution's established practices may be to treat proposal costs by some other recognized method. Regardless of the method used, the results obtained may be accepted only if found to be reasonable and equitable.

35. Rearrangement and alteration costs. Costs incurred for ordinary or normal rearrangement and alteration of facilities are allowable. Special arrangement and alteration costs incurred specifically for the project are allowable when such work has been approved in advance by the sponsoring agency.

36. Reconversion costs. Costs incurred in the restoration or rehabilitation of the institution's facilities to approximately the same condition existing immediately prior to commencement of a sponsored agreement, fair wear and tear excepted, are allowable.

37. Recruiting costs.

a. Subject to subsections b, c, and d, and provided that the size of the staff recruited and maintained is in keeping with workload requirements, costs of "help wanted" advertising, operating costs of an employment office necessary to secure and maintain an adequate staff, costs of operating an aptitude and educational testing program, travel costs of employees while engaged in recruiting personnel, travel costs of applicants for interviews for prospective employment, and relocation costs incurred incident to recruitment of new employees, are allowable to the extent that such costs are incurred pursuant to a well-managed recruitment program. Where the institution uses employment agencies, costs not in excess of standard commercial rates

for such services are allowable.

b. In publications, costs of help wanted advertising that includes color, includes advertising material for other than recruitment purposes, or is excessive in size (taking into consideration recruitment purposes for which intended and normal institutional practices in this respect), are unallowable.

c. Costs of help wanted advertising, special emoluments, fringe benefits, and salary allowances incurred to attract professional personnel from other institutions that do not meet the test of reasonableness or do not conform with the established practices of the institution, are unallowable.

d. Where relocation costs incurred incident to recruitment of a new employee have been allowed either as an allocable direct or F&A cost, and the newly hired employee resigns for reasons within his control within 12 months after hire, the institution will be required to refund or credit such relocation costs to the Federal Government.

38. Rental cost of buildings and equipment.

a. Rental costs of buildings or equipment are allowable to the extent that the decision to rent or lease is in accordance with Section C.3. Rental arrangements should be reviewed periodically to determine if circumstances have changed and other options are available.

b. Rental costs under "sale and lease back" arrangements are allowable only up to the amount that would be allowed if the institution continued to own the property.

c. Rental costs under "less-than-arms-length" leases are allowable only up to the amount that would be allowed if the institution owned the property. For this purpose, a less-than-arms-length lease is one under which one party to the lease agreement is able to control or substantially influence the actions of the other.

d. Where significant rental costs are incurred under leases which create a material equity in the leased property, they are allowable only up to the amount that would be allowed if the institution purchased the property on the date the lease agreement was executed. For this purpose, a material equity in the property exists when the lease:

(1) Is noncancelable or is cancelable only upon the occurrence of some remote contingency, and

(2) Has one or more of the following characteristics:

(a) Title to the property passes to the institution at some time during or after the lease period.

(b) The term of the lease corresponds substantially to the estimated useful life of the property (i.e., the period of economic usefulness to the legal owner of the property).

(c) The initial term is less than the useful life of the property and the institution has the option to renew the lease for the remaining useful life at substantially less than fair rental value.

(d) The property was acquired by the leaser to meet the special needs of the institution and will probably be usable only for that purpose and only by the institution.

(e) The institution has the right, during or at the expiration of the lease, to purchase the property at a price which at the inception of the lease appears to be substantially less than the probable fair market value at the time it is permitted to purchase the property (commonly called a lease with a bargain purchase option), except for any discount normally given to educational institutions.

39. Royalties and other costs for use of patents. Royalties on a patent or amortization of the cost of acquiring a patent or invention or rights thereto, necessary for the proper performance of the sponsored agreement and applicable to tasks or processes thereunder, are allowable unless the Federal Government has a license or the right to free use of the patent, the patent has been adjudicated to be invalid or has been administratively determined to be invalid, the patent is considered to be unenforceable, or the patent has expired.

40. Sabbatical leave costs. Costs of leave of absence by employees for performance of graduate work or sabbatical study, travel, or research are allowable provided the institution has a uniform policy on sabbatical leave for persons engaged in instruction and persons engaged in research. Such costs will be allocated on an equitable basis among all related activities of the institution. Where sabbatical leave is included in fringe benefits for which a cost is determined for assessment as a direct charge, the aggregate amount of such assessments applicable to all work of the institution during the base period must be reasonable in relation to the institution's actual experience under its sabbatical leave policy.

41. Scholarships and student aid costs.

a. Costs of scholarships, fellowships, and other programs of student aid are allowable only when the purpose of the sponsored agreement is to provide training to selected participants and the charge is approved by the sponsoring agency. However, tuition remission and other forms of compensation paid as, or in lieu of, wages to students performing necessary work are allowable provided that (1) there is a bona fide employer-employee relationship between the student and the institution for the work performed, (2) the tuition or other payments are reasonable compensation for the work performed and are conditioned explicitly upon the performance of necessary work, and (3) it is the institution's practice to similarly compensate students in nonsponsored as well as sponsored activities.

b. Charges for tuition remission and other forms of compensation paid to students as, or in lieu of, salaries and wages shall be subject to the reporting requirements stipulated in Section J.8, and shall be treated as direct or F&A cost in accordance with the actual work being performed. Tuition remission may be charged on an average rate basis.

42. Selling and marketing. Costs of selling and marketing any products or services of the institution (unless allowed under Section J.1.c. or J.34) are unallowable.

43. Severance pay.

a. Severance pay is compensation in addition to regular salary and wages which is paid by an institution to employees whose services are being terminated. Costs of severance pay are allowable only to the extent that such payments are required by law, by employer-employee agreement, by established policy that constitutes in effect an implied agreement on the institution's part, or by circumstances of the particular employment.

b. Severance payments that are due to normal recurring turnover and which otherwise meet the conditions of subsection a may be allowed provided the actual costs of such severance payments are regarded as expenses applicable to the current fiscal year and are equitably distributed among the institution's activities during that period.

c. Severance payments that are due to abnormal or mass terminations are of such conjectural nature that allowability must be determined on a case-by-case basis. However, the Federal Government recognizes its obligation to participate, to the extent of its fair share, in any specific payment.

d. Costs incurred in excess of the institution's normal severance pay policy applicable to all persons employed by the institution upon termination of employment are unallowable.

44. Specialized service facilities.

a. The costs of institutional services involving the use of highly complex or specialized facilities such as electronic computers, wind tunnels, and reactors are allowable, provided the charge for the service meets the conditions of subsections b through d.

b. The cost of each service normally shall consist of both its direct costs and its allocable share of F&A costs with deductions for appropriate income of Federal financing as described in Section C.5.

c. The cost of such institutional services when material in amount will be charged directly to users, including sponsored agreements based on actual use of the services and a schedule of rates that does not discriminate between federally and non-federally supported activities of the institution, including use by the institution for internal purposes. Charges for the use of specialized facilities should be designed to recover not more than the aggregate cost of the services over a long-term period agreed to by the institution and the cognizant Federal agency. Accordingly, it is not necessary that the rates charged for services be equal to the cost of providing those services during any one fiscal year as long as rates are reviewed periodically for consistency with the long-term plan and adjusted if necessary.

d. Where the costs incurred for such institutional services are not material, they may be allocated as F&A costs. Such arrangements must be agreed to by the institution and the cognizant Federal agency.

e. Where it is in the best interest of the Federal Government and the institution to establish alternative costing arrangements, such arrangements may be worked out with the cognizant Federal agency.

45. Student activity costs. Costs incurred for intramural activities, student publications, student clubs, and other student activities, are unallowable, unless specifically provided for in the sponsored agreements.

46. Taxes.

a. In general, taxes which the institution is required to pay and which are paid or accrued in accordance with generally accepted accounting principles are allowable. Payments made to local governments in lieu

of taxes which are commensurate with the local government services received are allowable, except for (1) taxes from which exemptions are available to the institution directly or which are available to the institution based on an exemption afforded the Federal Government, and in the latter case when the sponsoring agency makes available the necessary exemption certificates; and (2) special assessments on land which represent capital improvements.

b. Any refund of taxes, interest, or penalties, and any payment to the institution of interest thereon, attributable to taxes, interest, or penalties which were allowed as sponsored agreement costs, will be credited or paid to the Federal Government in the manner directed by the Federal Government. However, any interest actually paid or credited to an institution incident to a refund of tax, interest, and penalty will be paid or credited to the Federal Government only to the extent that such interest accrued over the period during which the institution has been reimbursed by the Federal Government for the taxes, interest, and penalties.

47. Transportation costs. Costs incurred for freight, express, cartage, postage, and other transportation services relating either to goods purchased, in process, or delivered, are allowable. When such costs can readily be identified with the items involved, they may be charged directly as transportation costs or added to the cost of such items. Where identification with the materials received cannot readily be made, inbound transportation cost may be charged to the appropriate F&A cost accounts if the institution follows a consistent, equitable procedure in this respect. Outbound freight, if reimbursable under the terms of the sponsored agreement, should be treated as a direct cost.

48. Travel costs.

a. General. Travel costs are the expenses for transportation, lodging, subsistence, and related items incurred by employees who are in travel status on official business of the institution. Such costs may be charged on an actual basis, on a per diem or mileage basis in lieu of actual costs incurred, or on a combination of the two, provided the method used is applied to an entire trip and not to selected days of the trip, results in reasonable charges, and is in accordance with the institution's travel policy and practices consistently applied to all institutional travel activities.

b. Lodging and subsistence. Costs incurred by employees and officers for travel, including costs of lodging, other subsistence, and incidental expenses, shall be considered reasonable and allowable only to the extent such costs do not exceed charges normally allowed by the

institution in its regular operations as a result of an institutional policy and the amounts claimed under sponsored agreements represent reasonable and allocable costs. In the absence of an acceptable institutional policy regarding travel costs, the rates and amounts established under subchapter I of Chapter 57 of Title 5, United States Code, or by the Administrator of General Services, or the President (or his or her designee) pursuant to any provisions of such subchapter shall apply to sponsored agreements (41 U.S.C. 420).

c. Commercial air travel. Airfare costs in excess of the lowest available commercial discount airfare, Federal Government contract airfare (where authorized and available), or customary standard (coach or equivalent) airfare, are unallowable except when such accommodations would: require circuitous routing; require travel during unreasonable hours; excessively prolong travel; greatly increase the duration of the flight; result in increased costs that would offset transportation savings; or offer accommodations not reasonably adequate for the medical needs of the traveler. Where an institution can reasonably demonstrate to the sponsoring agency either the nonavailability of discount airfare or Federal contract airfare for individual trips or, on an overall basis, that it is the institution's practice to make routine use of such airfare, specific determinations of nonavailability will generally not be questioned by the Federal Government, unless a pattern of avoidance is detected. However, in order for airfare costs in excess of the customary standard commercial airfare to be allowable, e.g., use of first-class airfare, the institution must justify and document on a case-by-case basis the applicable condition(s) set forth above.

d. Air travel by other than commercial carrier. "Cost of travel by institution-owned,

-leased, or -chartered aircraft," as used in this subsection, includes the cost of lease, charter, operation (including personnel costs), maintenance, depreciation, insurance, and other related costs. Costs of travel via institution-owned, -leased, or -chartered aircraft shall not exceed the cost of allowable commercial air travel, as provided for in subsection c.

49. Termination costs applicable to sponsored agreement.

a. Termination of sponsored agreements generally gives rise to the incurrence of costs or to the need for special treatment of costs, which would not have arisen had the agreement not been terminated. Items peculiar to termination are set forth below. They are to be used in conjunction with all other provisions of this Circular in the case of

termination.

b. The cost of common items of material reasonably usable on the institution's other work will not be allowable unless the institution submits evidence that it could not retain such items at cost without sustaining a loss. In deciding whether such items are reasonably usable on other work of the institution, consideration should be given to the institution's plans and orders for current and scheduled work.

Contemporaneous purchases of common items by the institution will be regarded as evidence that such items are reasonably usable on the institution's other work. Any acceptance of common items as allowable to the terminated portion of the agreement should be limited to the extent that the quantities of such items on hand, in transit, and on order are in excess of the reasonable quantitative requirements of other work.

c. If in a particular case, despite all reasonable efforts by the institution, certain costs cannot be discontinued immediately after the effective date of the termination, such costs are generally allowable within the limitations set forth in this Circular, except that any such costs continuing after termination due to the negligent or willful failure of the institution to discontinue such costs will be considered unacceptable.

d. Loss of useful value of special tooling, and special machinery and equipment is generally allowable, provided (1) such special tooling, machinery, or equipment is not reasonably capable of use in the other work of the institution; (2) the interest of the Federal Government is protected by transfer of title or by other means deemed appropriate by the contracting officer or equivalent; and (3) the loss of useful value as to any one terminated agreement is limited to that portion of the acquisition cost which bears the same ratio to the total acquisition cost as the terminated portion of the agreement bears to the entire terminated agreement and other Federal agreements for which the special tooling, special machinery, or equipment was acquired.

e. Rental costs under unexpired leases are generally allowable where clearly shown to have been reasonably necessary for the performance of the terminated agreement, less the residual value of such leases, if (1) the amount of such rental claimed does not exceed the reasonable use value of the property leased for the period of the agreement and such further period as may be reasonable; and (2) the institution makes all reasonable efforts to terminate, assign, settle, or otherwise reduce the cost of such lease. There also may be included the cost of alterations of such leased property, provided such alterations were necessary for the performance of the agreement, and of reasonable

restoration required by the provisions of the lease.

f. Settlement expenses including the following are generally allowable: (1) accounting, legal, clerical, and similar costs reasonably necessary for the preparation and presentation to contracting officers or equivalent of settlement claims and supporting data with respect to the terminated portion of the agreement, and the termination and settlement of subagreements; and (2) reasonable costs for the storage, transportation, protection, and disposition of property provided by the Federal Government or acquired or produced by the institution for the agreement, except when the institution is reimbursed for disposals at a predetermined amount in accordance with the provisions of Circular A-110.

g. Claims under subagreements, including the allocable portion of claims which are common to the agreement and to other work of the institution, are generally allowable.

50. Trustees. Travel and subsistence costs of trustees, regardless of the purpose of the trip, are unallowable.

K. Certification of charges.

1. To assure that expenditures for sponsored agreements are proper and in accordance with the agreement documents and approved project budgets, the annual and/or final fiscal reports or vouchers requesting payment under the agreements will include a certification, signed by an authorized official of the university, which reads essentially as follows: "I certify that all expenditures reported (or payment requested) are for appropriate purposes and in accordance with the provisions of the application and award documents."

2. Certification of F&A costs.

a. Policy.

(1) No proposal to establish F&A cost rates shall be acceptable unless such costs have been certified by the educational institution using the Certificate of F&A Costs set forth in subsection b. The certificate must be signed on behalf of the institution by an individual at a level no lower than vice president or chief financial officer of the institution that submits the proposal.

(2) No F&A cost rate shall be binding upon the Federal Government if the most recent required proposal from the institution has not been certified. Where it is necessary to establish F&A cost rates, and the

institution has not submitted a certified proposal for establishing such rates in accordance with the requirements of this section, the Federal Government shall unilaterally establish such rates. Such rates may be based upon audited historical data or such other data that have been furnished to the cognizant Federal agency and for which it can be demonstrated that all unallowable costs have been excluded. When F&A cost rates are unilaterally established by the Federal Government because of failure of the institution to submit a certified proposal for establishing such rates in accordance with this section, the rates established will be set at a level low enough to ensure that potentially unallowable costs will not be reimbursed.

b. Certificate. The certificate required by this section shall be in the following form:

Certificate of F&A Costs

This is to certify that to the best of my knowledge and belief:

(1) I have reviewed the F&A cost proposal submitted herewith;

(2) All costs included in this proposal [identify date] to establish billing or final F&A costs rate for [identify period covered by rate] are allowable in accordance with the requirements of the Federal agreement(s) to which they apply and with the cost principles applicable to those agreements.

(3) This proposal does not include any costs which are unallowable under applicable cost principles such as (without limitation): advertising and public relations costs, contributions and donations, entertainment costs, fines and penalties, lobbying costs, and defense of fraud proceedings; and

(4) All costs included in this proposal are properly allocable to Federal agreements on the basis of a beneficial or causal relationship between the expenses incurred and the agreements to which they are allocated in accordance with applicable requirements.

For educational institutions that are required to file a DS-2 in accordance with Section C.14, the following statement shall be added to the "Certificate of F&A Costs":

(5) The rate proposal is prepared using the same cost accounting practices that are disclosed in the DS-2, including its amendments and revisions, filed with and approved by the cognizant agency.

I declare under penalty of perjury that the foregoing is true and correct.
